HIGHLIGHTS OF THE BILL

The Financial Services and General Government Subcommittee has jurisdiction over a diverse group of agencies responsible for regulating the financial and telecommunications industries; collecting taxes and providing taxpayer assistance; supporting the operations of the White House, the Federal Judiciary, and the District of Columbia; managing Federal buildings; and overseeing the Federal workforce. The activities of these agencies impact nearly every American and are integral to the operations of our government.

However, with the gross Federal debt growing in excess of \$19 trillion, the Subcommittee is committed to reducing the cost and size of government. The bill provides a total of \$21,704,000,000 in discretionary budget authority for fiscal year 2017 which is \$1,500,000,000, or 6.5 percent, below the fiscal year 2016 discretionary allocation. The bill is \$2,692,335,000, or 11 percent, below the Administration’s request.

TOTAL BUDGET AUTHORITY
(\$ in millions)

	FY 2016 Enacted	FY 2017 Request	FY 2017 Recommendation
Discretionary	23,235	24,427	21,735
Mandatory	21,512	21,937	21,937

INTERNAL REVENUE SERVICE

The Internal Revenue Service (IRS) revels in paying out over \$400 billion in refunds annually, but the respect and affection of the American people is not for sale. The IRS betrayed the trust of Americans when it became known that the IRS inappropriately singled out certain tax-exempt groups for extra scrutiny based on their political beliefs. The magnitude of this betrayal cannot be

overstated, but it is just one incident—albeit a mammoth one—of the seemingly never-ending torrent of IRS mismanagement.

To address the inappropriate scrutiny, the bill includes language to:

- Prohibit funds for finalizing any regulation related to the standards used to determine the tax-exempt status of a 501(c)(4) organization;
- Prohibit funds for targeting groups for regulatory scrutiny based on their ideological beliefs;
- Prohibit funds for targeting citizens for exercising their First Amendment rights;
- Prohibit the White House from ordering the IRS to determine the tax-exempt status of an organization;
- Require compliance with the Federal Records Act, which prohibits the destruction of official records;
- Require IRS employees to be trained in the impartial application of tax law; and
- Provide the Treasury Inspector General for Tax Administration (TIGTA) with \$170 million to enhance its audit and investigative oversight of the IRS.

The Committee is troubled by the IRS's willingness to neglect taxpayers in need of assistance and by a recent revelation of cybersecurity weaknesses. The IRS blames budget cuts without acknowledging the degree of discretion it has to spend funds relatively unencumbered. The Government Accountability Office, however, has observed, "Although resources are constrained, IRS has flexibility in how it allocates resources to ensure that limited resources are utilized as effectively as possible . . . [magnifying] the importance of strategically managing operations to make tough choices about which services to continue providing and which services to cut." The Committee strongly advises the IRS to make improving the quality and security of customer service a high priority and includes an additional \$290,000,000 for this purpose.

The Committee continues to be concerned with the IRS' role in implementation of the Affordable Care Act and, in particular, the individual mandate. At a time when the IRS has demonstrated little ability to either self-police or self-correct, the IRS has even more authority over Americans' health coverage. The Committee finds this expansion of IRS authority to be unacceptable and, therefore, prohibits funding to implement the individual mandate and prohibits transfers from the Department of Health and Human Services to fund the IRS' implementation of the Affordable Care Act.

SMALL BUSINESS AND JOB CREATION

The bill makes programs that support small businesses and assist in private sector job creation a priority by providing \$157,064,000 for the Small Business Administration's business loan program to support \$28,500,000,000 in 7(a) lending and \$7,500,000,000 in 504 lending. The bill also provides \$125,000,000 for Small Business Development Centers, \$19,000,000 for Women's Business Centers, \$31,000,000 for Microloan Technical Assistance, and \$250,000,000 for the Treasury's Community Development Financial Institutions Fund program. In support of small breweries and distilleries, the bill provides \$111,439,000 for the Alcohol and Tobacco Tax and Trade Bureau, including additional funds for label

and formula processing and enforcement activities. The bill also requires certain regulatory agencies to report to the Committee on their efforts to eliminate duplicative, outdated and burdensome regulations.

LAW ENFORCEMENT AND COUNTERTERRORISM

The bill provides \$6,955,503,000 in discretionary funds for the operations of the Federal Judiciary to fulfill their statutory requirements to process criminal, civil, bankruptcy and appellate cases; to supervise defendants and offenders living in our communities; and provide defendant representation to those that cannot afford it.

The bill continues to make combating illegal drugs a priority by providing \$253,000,000 for High Intensity Drug Trafficking Areas, which is \$56,590,000 above the Administration's request, and \$97,000,000 for the Drug-Free Communities program, which is \$8,470,000 above the Administration's request.

For the District of Columbia, the bill provides \$274,541,000 for the operations of the District of Columbia Courts and \$246,386,000 for the supervision of offenders and defendants, which are \$140,000 and \$1,622,000, respectively, less than the request.

For Treasury's financial intelligence activities, the bill provides \$120,000,000 for the Office of Terrorism and Financial Intelligence to enhance their capabilities to combat drug lords, terrorists, weapons of mass destruction proliferators, rogue nations and other threats. This is \$3,000,000 above the enacted level and the Administration's request. In addition, the bill provides \$116,000,000 for the Financial Crimes Enforcement Network to support the financial intelligence requirements of law enforcement and intelligence agencies.

PROGRAM REDUCTIONS AND TERMINATIONS

In order to pay for the small business and law enforcement priorities described above while reducing overall spending, the Committee has reduced the operating expenses for many agencies below the fiscal year 2016 level including: the Bureau of Fiscal Service; the Internal Revenue Service; National Security Council and Homeland Security Council; the Office of Management and Budget (OMB); the Office of National Drug Control Policy—Salaries and Expenses; OMB—Information and Technology Oversight and Reform; the Court of Appeals for the Federal Circuit; Fees for Jurors; Federal payments for Resident Tuition Support; the Consumer Product Safety Commission; Election Assistance Commission; the Federal Communications Commission; the General Services Administration; the Privacy and Civil Liberties Oversight Board; Securities and Exchange Commission; the Small Business Administration—Disaster Loan Administration; and the Postal Service.

In addition, the bill eliminates funding for several programs including: Department of the Treasury—Department-Wide Systems and Capital Investments; Executive Office of the President—Unanticipated Needs; Federal payment for the District of Columbia Water and Sewer Authority; the Harry S Truman Scholarship Foundation; the Morris K. Udall and Stewart L. Udall Foundation; and the Public Company and Accounting Oversight Board's scholarship program.

OVERSIGHT AND ACCOUNTABILITY

In furtherance of the Committee's oversight responsibilities and commitment to accountability, the Committee has included the following language:

- Makes the Office of Financial Research (OFR) and the Consumer Financial Protection Bureau (CFPB) subject to the appropriations process starting in fiscal year 2018.
- Requires the CFPB to notify Congress when it requests a transfer of funds from the Board of Governors of the Federal Reserve System in fiscal year 2017.
- Changes the leadership structure of the CFPB from a single director to a five-member commission.
- Prohibits the CFPB from outlawing pre-dispute arbitration.
- Prohibits the Financial Stability Oversight Council from designating nonbanks as systemically important financial institutions until it identifies the risks to financial stability presented by the nonbank and allows the nonbank to present a plan to modify its business, structure, or operation to mitigate the identified risk prior to final designation.
- Requires additional reporting on mandatory expenses from OFR, CFPB, the Office of Financial Stability and the Judgment Fund.
- Makes the General Services Administration provide extensive reports on spending and activities.
- Freezes pay for the Vice President and senior Executive Branch political appointees.
- Checks the expansion of Executive Branch authorities by: prohibiting funds for signing statements that abrogate existing law; prohibiting funds for Executive Orders that contravene existing law; requiring budgetary impact statements for new or revoked Executive Orders and Presidential Memorandums; prohibits funding for so-called "czars"; and prohibiting changes in agency spending without the enactment of an appropriations bill.
- Rescinds unobligated balances from the Securities and Exchange Commission's (SEC) mandatory reserve fund, making the SEC live within the appropriation provided.
- Prohibits the SEC from requiring firms to disclose their political contributions.
- Prohibits funds to be used in contravention of the Federal Records Act.
- Requires agencies to conduct investigations in compliance with the Fourth Amendment.
- Prohibits funds to implement Executive Order No. 13690 (entitled "Establishing a Federal Flood Risk Management Standard and a Process for Further Soliciting and Considering Stakeholder Input") until certain conditions are met.
- Requires the Office of Management and Budget to report on the costs of Dodd-Frank.
- Prohibits the Federal Communications Commission (FCC) from implementing, administering, or enforcing any rule unless the FCC published the text of the rule at least 21 days before a vote on the rule.
- Prohibits the FCC from regulating rates for either broadband or wireless internet providers.

- Prohibits the FCC from implementing the net neutrality order until certain court challenges are decided.
- Prohibits the FCC from going forward with a proposed rule on set-top boxes until a peer-reviewed study is done by an academic institution and the FCC addresses concerns expressed by stakeholders.

The Committee expects agencies to respond to Congressional requests for information in the form and manner requested and in a timely fashion. The process for handling Congressional requests, on occasion, necessitates a negotiation of mutual accommodation, but without resulting in delay or denial.

OPERATING PLAN AND REPROGRAMMING PROCEDURES

The Committee will continue to evaluate reprogrammings proposed by agencies. Although reprogrammings may not change either the total amount available in an account or the purposes for which the appropriation is legally available, they represent a significant departure from budget plans presented to the Committee in an agency's budget justification and supporting documents, which are the basis of this appropriations Act. The Committee expects agencies' reprogramming requests to explain thoroughly the reasons for the reprogramming and to include an assessment of whether the reprogramming will affect budget requirements for the subsequent fiscal year.

Section 608 of this Act requires agencies or entities funded by the Act to notify the Committee and obtain prior approval from the Committee for any reprogramming of funds that: (1) creates a new program; (2) eliminates a program, project, or activity; (3) increases funds or personnel for any program, project, or activity for which funds have been denied or restricted by the Congress; (4) proposes to use funds directed for a specific activity by either the House or Senate Committees on Appropriations for a different purpose; (5) augments existing programs, projects, or activities in excess of \$5,000,000 or 10 percent, whichever is less; (6) reduces existing programs, projects, or activities by \$5,000,000 or 10 percent, whichever is less; or (7) creates or reorganizes offices, programs, or activities.

Additionally, the Committee expects to be promptly notified of all reprogramming actions which involve less than the above-mentioned amounts if such actions would have the effect of significantly changing an agency's funding requirements in future years, or if programs or projects specifically cited in the Committee's reports are affected by the reprogramming. Reprogrammings meeting these criteria must be approved by the Committee regardless of the amount proposed to be reallocated.

Section 608 also requires agencies to consult with the Committees on Appropriations prior to any significant reorganization or restructuring of offices, programs, or activities. This provision applies regardless of whether the reorganization or restructuring involves a reprogramming of funds. Agencies are encouraged to consult with the Committees early in the process so that any questions or concerns the Committees may have can be addressed in a timely manner.

Agencies are directed under section 608 to submit operating plans for the Committee's review within 60 days of the bill's enact-

ment. Each operating plan should include: (1) a table for each appropriation with a separate column to display the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if appropriate, and the fiscal year enacted level; (2) a delineation in the table for each appropriation both by object class and program, project, and activity as detailed in the budget appendix for the respective appropriation; and (3) an identification of items of special congressional interest.

SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$222,500,000
Budget request, fiscal year 2017 *	334,376,000
Recommended in the bill	250,000,000
Bill compared with:	
Appropriation, fiscal year 2016	+27,500,000

*Funding for the Office of Terrorism and Financial Intelligence was requested within the Departmental Office heading. Funding for the Department-wide Systems and Capital Investments Program and a new Cybersecurity Enhancement Account was requested as a separate heading.

The Departmental Offices' function in the Department of the Treasury is to support the Secretary of the Treasury in his capacity as the chief operating executive of the Department and in his role in determining the tax, economic, and financial management policies of the Federal Government. The Secretary's responsibilities funded by the Salaries and Expenses appropriation include: recommending and implementing domestic and international economic and tax policy; providing recommendations regarding fiscal policy; governing the fiscal operations of the government; managing the public debt; managing development of financial policy; representing the U.S. on international monetary, trade and investment issues; overseeing Treasury Department overseas operations; directing the administrative operations of the Treasury Department; and providing executive oversight of the bureaus within the Treasury Department.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$250,000,000 for Departmental Offices, Salaries and Expenses. The recommendation fully funds the Department's contributions to international governmental associations, and administrative expenses for implementing Resources and Ecosystems Sustainability, Tourism Opportunities, and Revived Economy of the Gulf Coast Act (RESTORE Act). The Committee provides sufficient funds to support the Department's cyber security initiatives.

Wildlife Trafficking and Ivory Poaching.—The Department is directed to pursue and enforce money laundering and other related laws as related to wildlife trafficking and the illegal ivory trade, particularly in Africa, and to report to the Committees on Appropriations of the House and Senate semiannually during fiscal year 2017 on enforcement actions and other steps taken to carry out the Implementation Plan of the National Strategy on Wildlife Trafficking during such fiscal year.

The Committee is encouraged by the variety of programs that apply innovative, science and data-based analytical tools to combat wildlife trade and trafficking and encourages enhanced monitoring and evaluation mechanisms and sharing of interagency findings and best practices to comprehensively target the financial underpinnings of wildlife trafficking. The Committee directs Treasury to work with the Department of State, the United States Agency for International Development, and the United States Fish and Wildlife Service to integrate information and share existing data and analytic capabilities to support a common operating platform that will inform strategies to combat money laundering and illicit trafficking and trade.

Financial Transactions.—The Committee encourages the Department of the Treasury to work with Federal bank regulators, financial institutions, and money service businesses to ensure that legitimate financial transactions move freely and globally. The Committee is frustrated that the Department has failed to report on its efforts to ensure the appropriate flow of legitimate financial transactions and directs the Department to submit a report to the Committees on Appropriations of the House and Senate on this matter not later than 90 days after enactment of this Act.

Puerto Rico.—Within 90 days of the date of enactment of this Act, the Department is directed to provide a report to the Committees on Appropriations of the House and Senate describing how the Department has used its authority to provide technical assistance to Puerto Rico in fiscal year 2016 and how it plans to use it in fiscal year 2017.

Data Localization.—Laws that require U.S. financial institutions to build in-country data centers in order to operate in foreign markets are becoming increasingly challenging. These laws compound risks, increase the complexity of regulatory obligations, add security challenges, and raise the cost of operating globally. Since various Federal agencies have been examining the effect of these laws on different sectors of U.S. economy, the Committee assumes the Department of the Treasury is conducting the assessment on the financial sector and expects to be kept apprised on potential risks posed.

Financial Stability Oversight Council and the Office of Financial Research.—The Committee believes the Office of Financial Research (OFR), established under P.L. 111–203, is unnecessarily opaque in its operations. The OFR and Financial Stability Oversight Council (FSOC) set their own budgets and then assess private institutions to pay for their operations, with no Congressional review of their funding. The Committee believes there should be adequate checks on OFR and FSOC actions, procedures, and funding. Therefore, the Committee has included language (sections 128, 129, and 130) which requires quarterly reporting on budget obligations, 90 day notice and comment for OFR reports and rules, and brings OFR under the appropriations process so that this office can be more transparent to the American people and Congress. For fiscal year 2017, the Administration estimates OFR and FSOC spending will total \$105,000,000 and \$18,000,000, respectively. When conducting research to support regulation of large swaths of the economy, both OFR and FSOC should be more receptive to the concerns, oversight, and counsel from the Legislative Branch.

International Negotiations.—The Committee believes that there should be more transparency surrounding negotiations, agreements, meetings, and consultations conducted by members of FSOC with the Financial Stability Board (FSB) and other international financial and economic organizations. Better coordination among global financial regulators is critical due to the far reaching impact these negotiations have on businesses across the globe. Currently, there is a significant lack of public information about these activities. The U.S. must retain its ability to compete in the global marketplace and, as such, a transparent dialog between international and U.S. regulators that justifies the rationale for risk management systems is critical to making certain U.S. companies are not placed at a competitive disadvantage. The Committee advises FSOC not to pursue failed or untested domestic policies through international agreements.

Basel Standards.—The Committee remains concerned that the U.S. prudential regulators have inappropriately applied several standards developed by the Basel Committee on Bank Supervision (Basel), which are explicitly designed for only the most internationally active, globally systemic, and highly complex banking organizations, to less complex organizations like regional banking organizations, which have only limited foreign exposure and do not pose a threat to the U.S. or global financial system. The Committee encourages Treasury and other prudential regulators to reexamine the impact of certain liquidity and capital standards as they apply to U.S. regional banks and other less complex organizations.

Cybersecurity.—The Committee recognizes the need to protect the financial services sector and its customers from the devastating effects of cyberattacks. While both industry and government have taken significant steps to mitigate this threat, there is more work to be done. The Committee encourages the continued coordination to develop consistent and workable cybersecurity safeguards across the financial services sector. Consistent with this goal, the Committee directs the Office of Critical Infrastructure Protection and Compliance Policy (OCIP) to report to the Committees on Appropriations of the House and Senate, the Committee on Financial Services of the House, and the Committee on Banking, Housing, and Urban Affairs of the Senate within 60 days of enactment of this Act on the status of this collaboration and ways to improve cybersecurity controls and safeguards.

SIFI Designations.—The Committee is concerned that the FSOC is misusing its authority by designating certain nonbank financial institutions as systemically important financial institutions (SIFI). As such, the Committee believes that the FSOC would benefit from early and close consultation with the primary regulators of nonbank financial companies before determining a SIFI designation.

The Committee strongly encourages the FSOC, in designating SIFIs, to take into account the distinctions between different asset management organizations, as well as the true risk to markets and the U.S. financial system. The FSOC should focus on activity-based designations, not size-based designations. In addition, the Committee expects the FSOC to solicit expert advice from and work closely with the Securities and Exchange Commission (SEC) in areas regarding securities regulation and management.

The Committee has included section 626 which allows nonbank financial companies to shed any risk-prone areas of their business, as identified by the FSOC, prior to designation.

The Committee notes the recent court decision related to the FSOC's SIFI designation of a nonbank. In light of this verdict, the Committee advises the FSOC to be prudent when making SIFI designations in the future. The Committee will continue to monitor this as the case works its way through the judicial review process. In addition, the Committee believes the FSOC should review and reevaluate SIFI designations annually and at the request of nonbank financial companies if there is a material change in their operations, activities, or in regulatory market conditions. During this review process, the FSOC should give companies a written analysis outlining specific activities that would be relevant to reevaluation, and the opportunity for the company to respond with relevant materials.

Insurance.—Under P.L. 111–203, the Federal Reserve Board (Board) was given authority to oversee certain nonbank holding companies, including a few bank and savings and loan holding companies with insurance affiliates, as well as certain SIFIs, which currently include three insurance companies. P.L. 111–203 also gave the Federal Insurance Office (FIO), within the Department of the Treasury, the authority to consult with the States on international issues and represent the U.S., as appropriate, in the International Association of Insurance Supervisors (IAIS).

The Committee notes that the State-based system of insurance regulation has served our nation well for more than 150 years. Any federal regulation of insurance can take final form only with explicit approval by Congress. It is important to note that other international financial agreements have had deleterious impacts on some of our nation's financial institutions.

The Committee is concerned about the ongoing negotiations held by the IAIS to develop standards on a variety of issues, including capital and a definition of non-traditional, non-insurance products, and believes the U.S. agencies party to those negotiations must appropriately fulfill their duties to advocate for the U.S. insurance market and State-based regulatory regime. The Committee also notes the importance of developing a domestic capital standard, pursuant to P.L. 111–203 and P.L. 113–279, that is based on the existing domestic regulatory structure. The Committee believes it essential that a domestic standard should be set before approval of any international standard that will or could ultimately be applied to U.S. insurers. Finally, the Committee reminds those Federal agencies party to IAIS or Financial Stability Board (FSB) negotiations to not support consolidated group-wide insurance capital standards for domestically-chartered internationally active insurance groups that are inconsistent with current state-based insurance standards, which are designed solely for the protection of the policyholder.

DATA Act.—The Committee is supportive of the Department's efforts to implement the Digital Accountability and Transparency Act of 2014 (DATA Act) and directs the Department to continue to emphasize a data-centric approach to federal financial reporting and to work with the Office of Management and Budget (OMB) to assure fully standardized automated agency data submissions. The

Department is expected to keep the Committee informed on its DATA implementation efforts.

Cross-border Regulatory Cooperation and Harmonization.—The Committee is concerned that both the Dodd-Frank Act and U.S. prudential regulators are creating a fragmented international financial system through an excessive ring-fencing regime of U.S. subsidiaries that does not recognize, and may disincentivize, cross-border regulatory cooperation. U.S. regulators should take into account the extent to which a foreign financial company is subject to home country standards, on a consolidated basis, that are comparable to, or exceed, those applied to financial companies in the United States. The Committee expects U.S. regulators to demonstrate cross-border regulatory cooperation, to include the mutual recognition of comparable or higher standards in certain jurisdictions, and to better coordinate with home country regulators to establish a mutual recognition framework so as to create greater incentives for all jurisdictions to raise their standards to U.S. levels.

OFFICE OF TERRORISM AND FINANCIAL INTELLIGENCE

SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$117,000,000
Budget request, fiscal year 2017*	117,000,000
Recommended in the bill	120,000,000
Bill compared with:	
Appropriation, fiscal year 2016	+3,000,000
Budget request, fiscal year 2017	+3,000,000

*Funding for the Office of Terrorism and Financial Intelligence was requested within the Departmental Office heading.

Economic and trade sanctions issued and enforced by the Office of Terrorism and Financial Intelligence’s (TFI) Office of Foreign Assets Control (OFAC) protect the financial system from being polluted with criminal and illicit activities and counteract national security threats from drug lords, terrorists, weapons of mass destruction proliferators, and rogue nations, among others. In addition to the enforcement of sanctions, TFI also produces vital analysis with regards to foreign intelligence and counterintelligence across all elements of the national security community.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$120,000,000 for the Office of Terrorism and Financial Intelligence to carry out its central role in detecting and defeating security threats. The recommended level is \$3,000,000 above the amount requested for these activities within “Departmental Offices, Salaries and Expenses” in fiscal year 2017 and \$3,000,000 above the fiscal year 2016 level. The Committee expects these additional funds to be used to strengthen the development and enforcement of sanction programs.

Iran Sanctions Act.—The Committee directs the Department of the Treasury to report to Congress on the status of implementation and enforcement of non-nuclear, bilateral and multilateral sanctions against Iran and actions taken by the U.S. and international community to enforce such sanctions.

Iran Nuclear Deal.—The Committee notes that the Joint Comprehensive Plan of Action (JCPOA), also known as the Iran nuclear

deal is not binding for State and local governments. The existing framework under which States have passed restrictions on doing business with Iran is still in place, and States are fully within their rights to enact new restrictions, or maintain current laws.

Sanctions Enforcement in Africa.—Protracted conflicts in nations such as Sudan, South Sudan, the Central African Republic, and the Democratic Republic of Congo have led to sanctions regimes and international arms embargoes to cut off the money flows that are fueling wars and contributing to regional destabilization. The Committee is concerned about the escalation of conflict and failure to abide by diplomatic agreements in these particular African states, even after sanctions have been imposed. The Committee supports the use of funds to enhance regional expertise and capacity for sanctions investigations, policy development, and enforcement of sanctions.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$35,416,000
Budget request, fiscal year 2017	37,044,000

Appropriation, fiscal year 2016	+1,628,000
Budget request, fiscal year 2017	— —

The Office of Inspector General (OIG) provides agency-wide audit and investigative functions to identify and correct operational and administrative deficiencies that create conditions for fraud, waste, and mismanagement. The audit function provides contract, program, and financial statement audit services. Contract audits provide professional advice to agency contracting officials on accounting and financial matters relative to negotiation, award, administration, repricing, and settlement of contracts. Program audits review and evaluate all facets of agency operations. Financial statement audits assess whether financial statements fairly present the agency's financial condition and results of operations, the adequacy of accounting controls, and compliance with laws and regulations. The investigative function provides for the detection and investigation of improper and illegal activities involving programs, personnel, and operations.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$37,044,000 for the OIG. The recommendation fully funds the cost of overseeing the Department's Resources and Ecosystems Sustainability, Tourism Opportunities, and Revived Economy of the Gulf Coast Act (RESTORE Act) activities.

TREASURY INSPECTOR GENERAL FOR TAX ADMINISTRATION

SALARIES AND EXPENSES

The Office of Treasury Inspector General for Tax Administration (TIGTA) conducts audits, investigations, and evaluations to assess the operations and programs of the IRS and its related entities, the IRS Oversight Board, and the Office of Chief Counsel. The purpose of those audits and investigations is as follows: (1) To promote the economic, efficient, and effective administration of the Nation’s tax laws and to detect and deter fraud and abuse in IRS programs and operations; and (2) to recommend actions to resolve fraud and other serious problems, abuses, and deficiencies in these programs and operations.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$169,634,000 for TIGTA. The Committee appreciates the many issues that TIGTA has brought to its attention and provides funding above the request to enhance TIGTA’s oversight of IRS activities and use of appropriated funds.

Cybersecurity.—Since cyberattacks continue to be a threat to the Federal Government, the Committee is concerned with the potential damage such an attack would have on the Internal Revenue Service. Therefore, the Committee directs the TIGTA to submit a report to the Committees on Appropriations of the House and Senate not less than six months after enactment of this Act describing the cyberattacks and attempted cyberattacks against the agency and their consequences; the steps taken to prevent, mitigate or otherwise respond to such attacks; the cybersecurity policies and procedures in place, including policies about ensuring safe use of computer and mobile devices by individual employees; and a description of all outreach efforts undertaken to increase awareness among employees and contractors of cybersecurity risks as well as an update on prior reported cyber incidents.

SPECIAL INSPECTOR GENERAL FOR THE TROUBLED ASSET RELIEF PROGRAM

SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$40,671,000
Budget request, fiscal year 2017	41,160,000
Recommended in the bill	41,160,000
Bill compared with:	
Appropriation, fiscal year 2016	+489,000
Budget request, fiscal year 2017	---

The Office of the Special Inspector General for the Troubled Asset Relief Program (SIGTARP) was established in the Emergency Economic Stabilization Act of 2008 (Public Law 110–343). Its mission is to conduct, supervise, and coordinate audits and investigations of the purchase, management, and sale of assets by the Secretary of the Treasury under programs established pursuant to the Troubled Asset Relief Program (TARP).

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$41,160,000 for SIGTARP.

SIGTARP’s operating expenses were initially funded with mandatory appropriations in the TARP. These funds, however, were

provided in a limited amount. As such, every year the amount of remaining mandatory funds has been decreasing over time. In order to continue vigorous oversight of the outstanding TARP amounts, additional discretionary appropriations are provided.

FINANCIAL CRIMES ENFORCEMENT NETWORK

SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$112,979,000
Budget request, fiscal year 2017	115,003,000
Recommended in the bill	116,000,000
Bill compared with:	
Appropriation, fiscal year 2016	+3,021,000
Budget request, fiscal year 2017	+997,000

The Financial Crimes Enforcement Network (FinCEN) is responsible for implementing Treasury’s anti-money laundering regulations through administration of the Bank Secrecy Act (BSA). It also collects and analyzes information to assist in the investigation of money laundering and other financial crimes. FinCEN supports law enforcement investigative efforts by Federal, State, local and international agencies, and fosters interagency and global cooperation against domestic and international financial crimes.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$116,000,000 for FinCEN. The recommended amount is intended to ensure FinCEN’s information is accessible to the law enforcement and intelligence communities and to ensure FinCEN can respond to requests for assistance from law enforcement. The data compiled and analyzed by FinCEN is a critical tool for investigating, among other crimes, money laundering, mortgage fraud, drug cartels, and terrorist financing.

Human Trafficking.—The Committee appreciates FinCEN’s history of supporting law enforcement cases that combat human trafficking, including its 2014 Guidance on Recognizing Activity that May be Associated with Human Smuggling and Human Trafficking to financial institutions, and emphasizes the importance of continuing this effort as part of the bureau’s broader mission to detect and disrupt all forms of financial crime. Wherever possible, FinCEN shall marshal its unique expertise in analyzing financial flows for this important effort in the course of ongoing strategic operations, such as the Southwest Border Initiative, and provide the appropriate assistance to law enforcement agencies in their human trafficking investigations.

TREASURY FORFEITURE FUND

(RESCISSION)

Appropriation, fiscal year 2016	–\$700,000,000
Budget request, fiscal year 2017	–657,000,000
Recommended in the bill	–753,610,000
Bill compared with:	
Appropriation, fiscal year 2016	–53,610,000
Budget request, fiscal year 2017	–96,600,000

COMMITTEE RECOMMENDATION

The Committee recommends a rescission of \$753,610,000 of unobligated balances in the Treasury Forfeiture Fund. The funds collected, disbursed and rescinded out of the Treasury Forfeiture Fund (the Fund) are incidental to law enforcement activities and priorities that led to the seizures and forfeitures. Disrupting and dismantling criminal organizations that pose the greatest threat to public safety and security is the highest priority of any law enforcement agency. The Fund can ensure resources are managed efficiently to cover the costs of an effective asset seizure and forfeiture program, including the costs of seizing, evaluating, inventorying, maintaining, protecting, advertising, forfeiting and disposing of property, but it must neither augment agency funding nor circumvent the appropriations process. Reliance on the Fund to offset the day-to-day operations, or to pay for new activities, creates an incentive to pursue cases suspected of high valued forfeitures rather than to target individuals or organizations that perpetrate the worst crimes against society.

The Committee directs the Department to submit to the Committees on Appropriations of the House and Senate a detailed table every month reporting the interest earned, forfeiture revenue collected, unobligated balances, recoveries, expenses to date, and expenses estimated for the remainder of the fiscal year.

BUREAU OF THE FISCAL SERVICE

SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$363,850,000
Budget request, fiscal year 2017	353,057,000
Recommended in the bill	353,057,000
Bill compared with:	
Appropriation, fiscal year 2016	- 10,793,000
Budget request, fiscal year 2017	- - -

The mission of the Bureau of the Fiscal Service is to promote the financial integrity and operational efficiency of the U.S. Government through accounting, borrowing, collections, payments, and shared services. The Fiscal Service is the Federal Government's central financial agent. The Fiscal Service also develops and implements reliable and efficient financial methods and systems to operate the government's cash management, credit management, and debt collection programs in order to maintain government accounts and report on the status of the government's finances. In addition, the Fiscal Service is the primary agency for collecting Federal non-tax debt owed to the government, and is responsible for the conduct of all public debt operations and the promotion of the sale of U.S. securities.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$353,057,000 for the Fiscal Service. Of the funds provided, \$4,210,000 is available until September 30, 2019, for information systems modernization.

The Committee is pleased that the Fiscal Service continues to realize cost-savings from the consolidation of the Bureau of Public Debt and the Financial Management Service.

DATA Act.—The Committee is supportive of the Department’s implementation of the DATA Act (P.L. 113–101). The Fiscal Service has worked to establish a DATA Act Schema that leverages industry standards to create a government-wide data structure for federal spending information. However, the Committee is concerned about the Administration’s ability to meet the May 2017 reporting deadline without clear, final guidance from the Office of Management and Budget (OMB). Specifically, the Committee is concerned by the findings in a recent January 2016 GAO report (“Data Standards Established, but More Complete and Timely Guidance Is Needed to Ensure Effective Implementation”; GAO 16 261), which found that many of the 57 draft data elements released by OMB and the Treasury Department in August 2015 (“Federal Spending Transparency Data Standards”) to have ambiguous or vague definitions that could inhibit government-wide aggregation of agency reported data. Moreover, final reporting guidance needs to be issued to agencies to clarify how they are to extract, compile, standardize, and report their spending data in advance of the law’s May 2017 deadline.

Within this appropriation, funding is included for USAspending.gov. The Committee expects the Fiscal Service to meet its transparency goals within USAspending.gov related to the DATA Act and will monitor progress in achieving government spending transparency. The Committee directs the Fiscal Service to meet its transparency goals within USAspending.gov and coordinate with OMB to publish all unclassified vendor contracts and grant awards for all federal agencies on USAspending.gov. The Committee directs the Fiscal Service to display this information online and report to the Committees on Appropriations of the House and Senate within 90 days of the enactment of this Act on its progress in achieving government spending transparency.

Judgment Fund.—The Committee appreciates Treasury’s release of the fiscal year 2015 annual report regarding payments made by the Judgment Fund under 31 U.S.C. 1304. The Committee directs the Department to issue the 2016 report within 60 days of enactment of this Act for the 2016 fiscal year, and directs that the report include all judgment fund payments since 2008, unless the disclosure of such information is otherwise prohibited by law or court order. The report shall consist of: (1) the name of the plaintiff or claimant; (2) the name of the counsel for the plaintiff or claimant; (3) the name of the agency that submitted the claim; (4) a brief description of the facts that gave rise to the claim; and (5) the amount paid representing principal, attorney fees, and interest, if applicable.

Do Not Pay Business Center.—The Committee supports the Do Not Pay Business Center’s goal of preventing ineligible recipients from receiving payments or awards from the Federal Government. This program supports the implementation of the Improper Payments Elimination and Recovery Improvement Act of 2012 (P.L. 112–248) which requires executive agencies to review all payments and awards before issuance. The Committee expects the Fiscal Service to sufficiently support the Do Not Pay Business Center within the Fiscal Service appropriation for fiscal year 2017.

ALCOHOL AND TOBACCO TAX AND TRADE BUREAU
SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$106,439,000
Budget request, fiscal year 2017	106,439,000
Recommended in the bill	111,439,000
Bill compared with:	
Appropriation, fiscal year 2016	+5,000,000
Budget request, fiscal year 2017	+5,000,000

The Alcohol and Tobacco Tax and Trade Bureau (TTB) is responsible for the enforcement of laws designed to eliminate certain illicit activities and to regulate lawful activities relating to distilled spirits, beer, wine, and nonbeverage alcohol products, and tobacco. TTB focuses on collecting revenue; reducing taxpayer burden and improving service while preventing diversion; and protecting the public and preventing consumer deception in certain regulated commodities.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$111,439,000 for the TTB.

Within this amount, an additional \$5,000,000 is included to help accelerate processing time for label and formula applications, and an additional \$5,000,000 is included for increased enforcement of the Federal Alcohol Administration Act (FAA Act).

Enforcement.—The Committee has included an additional \$5,000,000 over the fiscal year 2016 level for TTB to increase enforcement efforts for industry trade practice violations. Enforcement of basic trade practice functions, required under the FAA Act, is critical to ensuring a competitive, fair, and safe marketplace. The Committee directs the TTB to report to the Committees on Appropriations of the House and Senate, within 60 days of enactment of this Act, on how the additional funding will be used to bolster enforcement, forensic audits, and investigations particularly in known points in the supply chain that are susceptible to illegal activity.

Processing Time.—The Committee has again included \$5,000,000 for TTB to accelerate processing times for formula and label applications. The Committee continues to be concerned by the delays involved in securing basic label and formula approvals required under the FAA Act and has directed additional funding to the agency for enforcement of the regulations under the FAA Act. Building on the report from last year, the Committee directs the TTB to again report to the Committees on Appropriations of the House and Senate, within 60 days of enactment of this Act, on how the additional funding will be used to create greater efficiencies in responding to the growing demand from stakeholders.

UNITED STATES MINT

UNITED STATES MINT PUBLIC ENTERPRISE FUND

The United States Mint manufactures coins, receives deposits of gold and silver bullion, and safeguards the Federal Government's holdings of monetary metals. In 1997, Congress established the United States Mint Public Enterprise Fund (Public Law 104-52), which authorized the Mint to use proceeds from the sale of coins

to finance the costs of its operations and consolidated all existing Mint accounts into a single fund. Public Law 104–52 also provided that, in certain situations, the levels of capital investments for circulating coins and protective services shall factor into the decisions of the Congress.

COMMITTEE RECOMMENDATION

The Committee recommends a spending level for capital investments by the Mint for circulating coinage and protective services of \$30,000,000 for fiscal year 2017.

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS FUND
PROGRAM ACCOUNT

Appropriation, fiscal year 2016	\$233,523,000
Budget request, fiscal year 2017	245,923,000
Recommended in the bill	250,000,000
Bill compared with:	
Appropriation, fiscal year 2016	+16,477,000
Budget request, fiscal year 2017	+4,077,000

The Community Development Financial Institutions (CDFI) Fund provides grants, loans, equity investments, and technical assistance, on a competitive basis, to new and existing CDFIs such as community development banks, community development credit unions, and housing and microenterprise loan funds. Recipients use the funds to support mortgages, small business and economic development lending in underserved and distressed neighborhoods and to support the availability of financial services in these neighborhoods. The CDFI Fund is also responsible for implementation of the New Markets Tax Credits.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$250,000,000 for the CDFI Fund program. Of the amounts provided, \$184,000,000 is for financial and technical assistance grants, \$6,000,000 is for CDFIs to provide technical and financial assistance to individuals with disabilities, \$16,000,000 is for Native Initiatives, \$19,000,000 is for the Bank Enterprise Award Program, and \$25,000,000 is for the administrative expenses for all programs of which no less than \$2,000,000 is to build a stronger network of CDFIs to integrate their programs with individuals with disabilities. In addition, the Committee recommends a loan level of \$250,000,000 for the Bond Guarantee Program.

CDFIs in U.S. Insular Areas.—The Committee notes the absence of CDFIs serving American Samoa, Northern Mariana Islands and other U.S. insular areas and recommends that the CDFI Fund use its Capacity Building Initiative to expand service, to the extent practical, to these areas.

Likewise, the Committee encourages the expansion of CDFIs in Puerto Rico.

CDFI Program Integration for Individuals with Disabilities.—The Committee is pleased to provide dedicated funds for financial and technical assistance grants to position more CDFI’s to respond to the housing, transportation, education, and employment needs of underserved, low-income, individuals with disabilities. By increasing the visibility of the disability community, the Committee ex-

pects CDFI's to incorporate the needs of the disabled into their business plans and practices. Additional funds are provided for capacity building to provide instruction and education on how the needs of low-income, individuals with disabilities can be integrated into an array of investments and financial services.

The Committee directs the CDFI to submit a quarterly report no later than 30 days following the end of each calendar quarter in fiscal year 2017 to the Committees on Appropriations of the House and Senate that include a summary of the progress made toward developing a competitive application pool of CDFIs to compete for these funds along with objective selection criteria, promoting CDFI growth to assist individuals with disabilities, and creating a timeline with milestones to complete these activities. Additionally, the Committee is interested in the number of awards, amount of each award, types of programs and impact the funding has made on the disability community. The report should also include CDFI's findings and recommendations to improve upon the implementation of these activities.

INTERNAL REVENUE SERVICE

The Committee recommends providing \$10,999,000,000 for the IRS, which is \$236,000,000 below current level and \$1,281,095,000 below the request. This recommendation would fund the IRS, in total, below their fiscal year 2008 level. Funding for the Taxpayer Service account is at \$2,156,554, which is equal to their current level. However, Congress recommends an additional \$290,000,000 dedicated to improve taxpayer services, identity theft, and cybersecurity.

In addition, the Committee includes language to:

- Prohibit funds for finalizing any regulation related to the standards used to determine the tax-exempt status of a 501(c)(4) organization;
- Prohibit funds for IRS employee bonuses and awards that do not consider the conduct and tax compliance of such employees;
- Prohibit funds for hiring former IRS employees without considering the employees past conduct and tax compliance;
- Prohibit funds for targeting groups for regulatory scrutiny based on their ideological beliefs;
- Prohibit funds for targeting citizens for exercising their First Amendment rights;
- Prohibit funds for conferences that do not comply with the Treasury Inspector General for Tax Administration's (TIGTA) recommendations regarding conferences;
- Prohibit funds for the production of videos that have not been reviewed for cost, topic, tone, and purpose and certified to be appropriate;
- Prohibit the White House from ordering the IRS to determine the tax-exempt status of an organization;
- Require extensive reporting on IRS spending; and
- Provide TIGTA with \$170 million for its audit and investigative oversight of the IRS.

The Committee remains aggrieved by the IRS' past attempt to propose new regulations for determining the tax-exempt status of 501(c)(4) organizations, which offended organizations across the political spectrum. It is not evident what clarity these proposed regu-

lations will provide and it is likely they will breed confusion among organizations regarding their tax-exempt status. Given these concerns, the Committee continues a funding prohibition to prevent the Department of the Treasury from implementing their proposed or revised regulation regarding the standards and definitions used to determine the tax-exempt status of organizations under section 501(c)(4) of the Internal Revenue Code.

A description of the Committee’s recommendation by appropriation is provided below.

TAXPAYER SERVICES

Appropriation, fiscal year 2016	\$2,156,554,000
Budget request, fiscal year 2017	2,406,318,000
Recommended in the bill	2,156,554,000
Bill compared with:	
Appropriation, fiscal year 2016	---
Budget request, fiscal year 2017	- 249,764,000

The Taxpayer Services appropriation provides for taxpayer services, including forms and publications; processing tax returns and related documents; filing and account services; taxpayer advocacy services; and assisting taxpayers to understand their tax obligations, correctly file their returns, and pay taxes due in a timely manner.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$2,156,554,000 for Taxpayer Services, which is \$83 million below the account’s pre-sequestration funding level. Within the amount provided, the Committee expects the IRS to sufficiently fund the Taxpayer Advocate Service.

Identity Theft.—Identity theft remains a persistent obstacle to accurate, fair, and efficient tax collection. Innocent taxpayers, who otherwise comply with their tax obligations, have their refunds delayed and are drawn unwittingly into the IRS examination process because their identity was stolen and misused. This problem is especially pernicious in the U.S. territories and possessions, where organized schemes fraudulently use the taxpayer identification numbers of territorial residents to obtain credits or refunds on tax returns filed with the United States, costing American taxpayers billions of dollars.

The Committee requires a report, reviewed by the National Taxpayer Advocate, from the IRS that covers 2010–2016 period on: the number of taxpayers who have had their tax return rejected because their Social Security or taxpayer identification number was improperly used by another individual to commit tax fraud; the average time to resolve the situation and provide innocent taxpayers with their refund, when a refund is due; and the number of cases involving taxpayer identification numbers of residents of the territories. The report will also include a discussion on IRS’s progress and plans to expedite resolution for these taxpayers, to prevent non-victims from becoming victims, to educate the public on the threat of identity theft, and to detect, prevent, and combat identity-based tax fraud and actions. The report should address IRS’ plans and progress to implement the GAO recommendations listed in its March 28, 2016, report “Information Security”. The Committee di-

rects the IRS to submit the report to the Committees on Appropriations of the House and Senate by June 17, 2017.

Pre-Filled or Simple Tax Returns.—The Committee believes that converting a voluntary compliance system to a bill presentment model would represent a significant change in the relationship between taxpayers and their government. The simple return model would also strain IRS resources and the data retrieval systems required would create new burdens on employers, particularly small businesses. In addition, a fundamental conflict of interest seems to be inherent in the nation’s tax collector and compliance enforcer taking on the simultaneous role of tax preparer and financial advisor. The Committee expects that the IRS will not begin work on a simple tax return pilot program or associated systems without first seeking specific authorization and appropriations from Congress, and should instead focus on helping Congress and the Administration achieve real tax simplification and reform.

Level of Service Plan.—The IRS would benefit from exploring new customer service innovations to deliver quality and timely telephone and written correspondence service to taxpayers. The Committee agrees with the Government Accounting Office recommendation that the IRS should systematically and periodically compare its level of telephone service to the best in business to identify gaps between actual and desired performance and directs IRS to submit a plan to the Committees on Appropriations of the House and Senate six months after the enactment of this Act. This should include a customer service plan with specific goals, strategies, and resources to achieve those goals.

Earned Income Tax Credits.—The Committee recognizes the importance of continued efforts to improve the administration of the Earned Income Tax Credits (EITC) for all taxpayers and encourages the IRS to explore new strategies to reduce fraudulent EITC claims.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$4,760,000,000 for Enforcement. Of the funds provided, the Committee recommends not less than \$60,257,000 to support IRS activities under the Interagency Crime and Drug Enforcement program. None of

the funds requested for implementation of the Patient Protection and Affordable Care Act are provided.

Regulation of Paid Preparers.—Last year, the Committee requested a report by the IRS on the regulation of paid preparers to be reviewed by the Government Accountability Office. The Committee is looking forward to the report in order to learn more about the cost-effectiveness of education and filing season readiness standards.

Favorable Determination Letters.—The Committee believes the Favorable Determination Letter program is a valuable and useful service, assuring tax administrators that they are operating employee plans in compliance with tax law.

Guidelines for Pari-mutuel Winnings.—The Committee appreciates the Department of the Treasury’s proposed rule (REG–132253–11) published on March 4, 2015, along with the associated public hearing held on June 17, 2015. The Committee encourages the Treasury to expedite final consideration of the guidance which would modernize the rules governing pari-mutuel wagering.

Foreign Account Tax Compliance Act.—Not less than 60 days after enactment of this Act, the Department of the Treasury shall submit a report to the Committees of Appropriations of the House and Senate on its decision (TD 9610 (78 FR 5874)) and TD 9657 (79 FR 12811)) to require withholding on non-cash value insurance premiums, including payments by foreign insurance brokers.

OPERATIONS SUPPORT

Appropriation, fiscal year 2016	\$3,638,446,000
Budget request, fiscal year 2017	4,314,099,000
Recommended in the bill	3,502,446,000
Bill compared with:	
Appropriation, fiscal year 2016	– 136,000,000
Budget request, fiscal year 2017	– 811,653,000

The Operations Support appropriation provides for overall planning and direction of the IRS, including shared service support related to facilities services, rent payments, printing, postage, and security. Specific activities include headquarters management activities such as strategic planning, communications and liaison, finance, human resources, Equal Employment Opportunity and diversity, research, information technology, and telecommunications.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$3,502,446,000 for Operations Support. None of the funds requested for implementation of the Patient Protection and Affordable Care Act are provided.

Printed Forms and Instructions.—The Committee encourages the IRS to continue to provide printed forms and instructions to vulnerable populations, especially rural communities where internet usage rates are below the national average.

Obligations and Employment.—Not later than 45 days after the end of each quarter, the Internal Revenue Service shall submit reports on its activities to the House and the Senate Committees on Appropriations. The reports shall include information about the obligations made during the previous quarter by appropriation, object class, office, and activity; the estimated obligations for the remain-

der of the fiscal year by appropriation, object class, office, and activity; the number of full-time equivalents within each office during the previous quarter; and the estimated number of full-time equivalents within each office for the remainder of the fiscal year.

Information Technology Reports.—The Committee directs the IRS to submit quarterly reports on particular major project activities to the Committees on Appropriations of the House and the Senate and the GAO, no later than 30 days following the end of each calendar quarter in fiscal year 2017. The Committee expects the reports to include detailed, plain English explanations of the cumulative expenditures and schedule performance to date, specified by fiscal year; the costs and schedules for the previous 3 months; the anticipated costs and schedules for the upcoming 3 months; and the total expected costs to complete the following major information technology project activities: IRS.gov; Returns Remittance Processing; EDAS/IPM; Information Returns and Document Matching; E-services; Taxpayer Advocate Service Integrated System; Affordable Care Act administration; and other projects associated with significant changes in law. In addition, the quarterly report should clearly explain when the project was started; the expected date of completion; the percentage of work completed as compared to planned work; the current and expected state of functionality; any changes in schedule; and current risks unrelated to funding amounts and mitigation strategies. The Committee directs the Department of the Treasury to conduct a semi-annual review of IRS’s IT investments to ensure the cost, schedule, and scope of the projects goals are transparent. The Committee further directs GAO to review and provide an annual report to the Committees evaluating the cost and schedule of activities of all major IRS information technology projects for the year, with particular focus on the projects about which the IRS is submitting quarterly reports to the Committee.

Identity Protection Personal Identification Numbers.—The IRS’ Identity Protection Personal Identification Numbers (IP PIN) pilot program, conducted in Florida, Georgia, and the District of Columbia to prevent tax refund fraud by identity theft, was suspended in FY 2016 due to ID PIN theft. The Committee directs the IRS to submit a detailed report to the Committees of Appropriations in the House and Senate not later than 120 days after enactment of this Act on the security enhancements implemented to prevent stolen ID PINs and make the system operational again, cost of system improvements, the number of people with stolen ID PINs, the number and total dollar amount of refunds provided as a result of the stolen ID PINs and the timeframe and assistance provided to victims of ID PIN theft to file their taxes, obtain their refunds, and secure their personal information.

BUSINESS SYSTEMS MODERNIZATION

Appropriation, fiscal year 2016	\$290,000,000
Budget request, fiscal year 2017	343,415,000
Recommended in the bill	290,000,000
Bill compared with:	
Appropriation, fiscal year 2016	---
Budget request, fiscal year 2017	- 53,415,000

The Business Systems Modernization (BSM) appropriation provides funding to modernize key business systems of the Internal Revenue Service.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$290,000,000 for BSM. The Committee continues to support IRS in its efforts to modernize its business systems such as CADE 2 and the Enterprise Case Management systems as well as the Return Review Program that enhances IRS capabilities to detect, address, and prevent tax refund fraud.

Information Technology Reports.—The Committee expects the IRS to continue to submit quarterly reports to the Committees and GAO during fiscal year 2017, no later than 30 days following the end of each calendar quarter. The Committee expects the reports to include detailed, plain English explanations of the cumulative expenditures and schedule performance to date, specified by fiscal year; the costs and schedules for the previous 3 months; the anticipated costs and schedules for the upcoming 3 months; and the total expected costs to complete CADE2 and MeF. In addition, the quarterly report should clearly explain when the project was started; the expected date of completion; the percentage of work completed as compared to planned work; the current and expected state of functionality; any changes in schedule; and current risks unrelated to funding amounts and mitigation strategies. The Committee directs the Department of the Treasury to conduct a semi-annual review of CADE2 and MeF to ensure the cost, schedule, and scope goals of the projects are transparent. The Committee further directs GAO to review and provide an annual report to the Committee evaluating the cost and schedule of CADE2 and MeF activities for the year, as well as an assessment of the functionality achieved.

Audit Trail Compliance.—Audit trails are a key component of effective information technology security. Maintaining sufficient audit trails is critical to establishing accountability over users and their actions within information systems. The Committee directs the IRS to submit quarterly reports to the Committees on Appropriations of the House and Senate and Treasury Inspector General for Tax Administration (TIGTA) on its progress towards implementing the audit trail requirements described in TIGTA's "Semi-annual Report to Congress April 1, 2015—September 30, 2015", consistent with the Internal Revenue Manual, for legacy and planned business systems modernization investments with priority consideration to business systems presenting the most significant threats to taxpayer information.

Section 126. The Committee continues a provision that requires a report on the Department’s Franchise Fund.

Section 127. The Committee continues a provision that prohibits the Department from finalizing any regulation related to the standards used to determine the tax-exempt status of a 501(c)(4) organization.

Section 128. The Committee continues a provision that requires quarterly reports of the Office of Financial Research (OFR) and Office of Financial Stability.

Section 129. The Committee includes a new provision requiring the OFR to provide public notice of not less than 90 days before issuing a rule, report, or regulation.

Section 130. The Committee includes a new provision that limits the fees available for obligation by the OFR to the amount provided in appropriations acts beginning in fiscal year 2018. The Committee believes that the activities of OFR should be subject to the annual review of Congress.

Section 131. The Committee includes a new provision that prohibits the Department from enforcing guidance for U.S. positions on multilateral development banks which engage with developing countries on coal-fired power generation.

Section 132. The Committee includes a new provision with respect to the so-called people-to-people category of travel. As set forth in title 31, section 515.565(b)(2) of the Code of Federal Regulations, this category of travel contravenes the explicit prohibition against tourist activities as provided in section 910(b) of the Trade Sanctions Reform and Export Enhancement Act of 2000 (TSRA). Furthermore, the stated purpose of people-to-people travel, which is to promote the Cuban people's independence from Cuban authorities, cannot be accomplished through itineraries that mainly feature interactions with representatives of a dictatorship that actively oppresses the Cuban people, nor can it be accomplished through itineraries that do not require meetings with pro-democracy activists or independent members of Cuban civil society.

Section 133. The Committee includes a new provision to prohibit funds to approve, license, facilitate, authorize, or otherwise allow the importation of property confiscated by the Cuban Government.

Section 134. The Committee includes a new provision to prohibit funds to approve, license, facilitate, authorize, or otherwise allow any financial transactions with the Cuban military or intelligence service. This section does not apply to exports permitted under the Trade Sanctions Reform and Export Enhancement Act of 2000 or to financial transactions necessary for the maintenance and improvement of the military base at Guantanamo Bay, Cuba.

Section 135. The Committee includes a new provision to prohibit funds to approve or otherwise allow the licensing of a mark, trade name, or commercial name that is substantially similar to one that was used in connection with a business or assets that were confiscated unless expressly consented.

The Committee recommends an appropriation of \$10,896,000 for the National Security Council and Homeland Security Council.

Staffing report.—The Committee is concerned about the size of the National Security Council (NSC). What once was an inter-agency review process has become a growing bureaucracy that inhibits Secretary-level recommendations especially as they relate to critical national security policy decisions. In an effort to streamline the NSC, the Committee has reduced funding for the NSC relative to its enacted level. In addition, the Committee directs, within 90 days of enactment of this Act, the NSC provide a report outlining the roles and responsibilities of all of its full time equivalent (FTE) employees. This report shall include a breakout of all positions and FTEs that are assigned from other agencies to the NSC and all FTEs which the NSC has detailed to other agencies as well as associated start and end dates of assignment and any unreimbursed costs. The Office of Management and Budget (OMB) assists the President in the discharge of budgetary, economic, management, and other executive responsibilities.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$91,000,000 for OMB. The recommendation also continues several long-standing provisos, not requested by the President, limiting certain OMB activities.

Budget Submission.—The recommendation provides sufficient funds for OMB to consult with and provide Congressional Committees with an appropriate number of printed and electronic copies of the President's fiscal year 2018 budget request, including documents such as the Appendix, Historical Tables, and Analytical Perspectives. The Committee believes that if the Administration wants the Congress to consider its proposed budget that it should provide the Congress with copies of the budget request.

Personnel and Obligations Report.—The Committee directs OMB to provide the Committees on Appropriations of the House and Senate with quarterly reports on personnel and obligations consisting of on-board staffing levels, estimated staffing levels by office for the remainder of the fiscal year, total obligations incurred to date, estimated total obligations for the remainder of the fiscal year, and a narrative description of current hiring initiatives.

Unobligated Balances Report.—OMB is directed to report to the Committees on Appropriations of the House and Senate within 45 days of the end of each fiscal quarter on available balances at the start of the fiscal year, current year obligations, and resulting unobligated balances for each discretionary account within the Financial Services and General Government subcommittee's jurisdiction.

Contracting models.—The Committee notes that in some instances using transaction-based or no-cost contracting models for delivering or procuring information technology goods and services can save resources and increase efficiencies. The Committee believes that OMB should provide guidance to agencies on transaction-based and no-cost funding models, including when it is appropriate to consider using these contract tools, how to calculate potential savings from their use, and standards and best practices for conducting their procurement.

Social Cost of Carbon.—The Committee believes that the OIRA should not allow any regulations to be finalized using the Technical Support Document: Technical Update of the Social Cost of Carbon for Regulatory Impact Analysis Under Executive Order 12866, Interagency Working Group on Social Cost of Carbon, United States Government, May 2013 until a new working group is convened. The working group should include the relevant agencies and affected stakeholders, re-examine the social cost of carbon using the best available science, and revise the estimates using an accurate discount rate and domestic estimate in accordance with Executive Order 12866 and OMB Circular A-94. To increase transparency, the working group should solicit public comment prior to finalizing any updates.

Intellectual Property.—The Committee continues to strongly support the Office of the Intellectual Property Enforcement Coordinator (IPEC), including its important work promoting private sector efforts to reduce online copyright infringement. The Committee encourages IPEC to work with U.S.-based Internet registrars and registries to ensure that parties are taking voluntary, cooperative

action against illegal activities online. Given the growing threat of cybercrime and the link between intellectual property theft and other forms of cybercrime, including malware and hacking, OMB should provide IPEC with an additional full-time equivalent position above its current staffing level to focus on the area of cybercrime.

Rulemakings.—The Committee notes that Executive Order 13563 requires each agency to ensure the objectivity of any scientific and technological information and processes used to support the agency’s regulatory actions. The Committee emphasizes the requirement that federal agencies are appropriately evaluating the quality, objectivity, utility, and integrity of any scientific and economic information used to support agency guidance and rulemakings.

Travel.—As part of OMB Memorandum M–12–12, Federal agencies are directed to reduce their travel expenses by 30 percent below the fiscal year 2010 level. The Committee supports OMB’s efforts to reduce costs across Federal agencies by eliminating unnecessary travel expenses and directs OMB to submit a report to the Committee on Appropriations of the House and Senate no later than 120 days after enactment of this Act on whether agencies have complied with this memorandum during the previous fiscal year. The report shall identify the savings achieved by each agency, whether the 30 percent savings goal was achieved, and how or if the changes in travel and conference policies have impacted agencies’ ability to perform mission critical activities. The report shall also include recommendations to improve upon OMB’s travel policies. OMB shall ensure that agencies are implementing policies regarding travel, event, meeting or conference locations based on the most efficient use of taxpayer funds.

Improper Payments.—The Committee believes OMB should work with agencies across the Federal Government to ensure processes are in place to eliminate payments to deceased persons. OMB is directed to report to the Committees on Appropriations of the House and Senate within 120 days of enactment of this Act on how it is ensuring that agencies are not making improper payments to deceased individuals.

DATA Act.—The Committee recognizes OMB’s responsibilities related to implementation of the Digital Accountability and Transparency Act of 2014 (DATA Act). The Committee is concerned that OMB has not adequately prioritized DATA Act implementation. The Committee directs OMB to ensure agency compliance of the data-centric approach to federal financial reporting and fully standardized automated agency data submissions. The Committee includes funding for activities associated with DATA Act implementation and expects OMB to keep the Committee informed on its DATA implementation efforts.

Federal Privacy Council.—In accordance with Executive Order 13719, OMB shall convene the Federal Privacy Council at least annually. The Director shall issue a public notice to Congress regarding its meetings. The Council will be comprised of the Senior Agency Officials for Privacy from the 24 departments and agencies listed in the Executive Order, and any others that the Office of Management and Budget may deem appropriate.

Customer Service.—The Committee appreciates that the Administration has tried to improve customer service in accordance with

Executive Order 13571—Streamlining Service Delivery and Improving Customer Service. However, more needs to be done to improve the services that the government provides whether it is citizens calling the Internal Revenue Service with questions, or Office of Personnel Management processing Federal employment retirement claims. The Committee directs OMB to develop standards to improve customer service for all agencies, and provide to the Committees on Appropriations of the House and Senate a report on how these standards are incorporated into the performance plans required under 31 U.S.C. 1115 within 90 days of the enactment of this Act.

Performance Measures.—In fiscal year 2014, the Committee directed that the head of each agency link its performance plans with their funding requests included in the President’s budget request. While some progress was made on this effort in fiscal years 2015, 2016, and 2017, more needs to be done. Performance measures in future budget justifications should clearly demonstrate the extent to which performance reporting under 31 U.S.C. 1116 demonstrates that prior year investments in programs, projects, and activities are tied to progress toward achieving performance and priority goals and include estimates for how proposed investments will contribute to additional progress. In particular, performance measures should examine outcome measures, output measures, efficiency measures and customer service measures as defined in 31 U.S.C. 1115(h). The Committee urges OMB to work with agencies to ensure that agency funding requests in fiscal year 2018 are directly linked to agency performance plans. The Committee directs OMB to report to the Committees on Appropriations of the House and Senate within 180 days of enactment of this Act on its progress improving the use of performance measures in the Executive Branch’s budgeting processes.

Poverty.—Strengthening America’s social safety net to better help those in need and improving education and training programs will give individuals the ability to enter or reenter, remain in, and, ultimately, succeed in the workforce. The Federal Government administers over 100 programs and tax credits designed to provide a pathway out of poverty. The impact of this funding, however, is dulled by the bureaucratic, fragmented, and formulaic nature of these programs. In its central role for developing budget and policy, OMB can access and coordinate the effectiveness of these programs.

Merit-based Grant Making Procedures.—The Committee notes that current OMB Uniform Guidance requires agencies to design and execute a merit review process for competitive grant applications.

Online Budget Repository.—The Committee encourages OMB to develop a central online repository where all Federal agency budgets and their respective justifications are publicly available in a consistent searchable, sortable, and machine readable format.

OFFICE OF NATIONAL DRUG CONTROL POLICY
SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$20,047,000
Budget request, fiscal year 2017	19,274,000
Recommended in the bill	19,274,000
Bill compared with:	
Appropriation, fiscal year 2016	- 773,000
Budget request, fiscal year 2017	- - -

The Office of National Drug Control Policy (ONDCP) was established by the Anti-Drug Abuse Act of 1988. As the President’s primary source of support for counter-drug policy development and program oversight, ONDCP is responsible for developing and updating a National Drug Control Strategy, developing a National Drug Control Budget, and coordinating and evaluating the implementation of Federal drug control activities. In addition, ONDCP manages several counter-drug programs which are discussed under the “Federal Drug Control Programs” heading below. These programs include the High Intensity Drug Trafficking Areas (HIDTA) program and Drug-Free Communities grants.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$19,274,000 for ONDCP Salaries and Expenses. The Committee expects ONDCP to focus resources on the counter-drug policy development, coordination and evaluation functions which are the primary mission of the Office and the origins of its existence.

The Committee is pleased that the ONDCP is addressing the heroin epidemic. It is the responsibility of ONDCP to ensure that all Federal agencies involved in the Heroin Response Strategy are coordinated and using resources efficiently. The Committee directs ONDCP to report 180 days after enactment of this Act to the Committees on Appropriations of the House and Senate regarding all the expenditures and activities that the ONDCP is overseeing in regards to the Heroin Response Strategy.

The Committee is aware of and recognizes the difficulty that small and rural law enforcement agencies face with regard to overtime compensation for participation in multi-agency drug task forces. The Committee expects the ONDCP to coordinate with small and rural law enforcement agencies and develop strategies to improve the effectiveness of drug eradication efforts through shared intelligence, technology, and manpower despite limited resources.

FEDERAL DRUG CONTROL PROGRAMS

HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM

(INCLUDING TRANSFERS OF FUNDS)

Appropriation, fiscal year 2016	\$250,000,000
Budget request, fiscal year 2017	196,410,000

Bill compared with:	
Appropriation, fiscal year 2016	+3,000,000
Budget request, fiscal year 2017	+56,590,000

The High Intensity Drug Trafficking Areas (HIDTA) Program provides resources to Federal and State, local, and tribal agencies in designated HIDTAs to combat the production, transportation

and distribution of illegal drugs; to seize assets derived from drug trafficking; to address violence in drug-plagued communities; and to disrupt the drug marketplace.

Currently, 28 HIDTAs operate in 48 States plus the District of Columbia, Puerto Rico, and the Virgin Islands. Each HIDTA is managed by an Executive Board comprised of equal numbers of Federal, State, local or tribal officials. Each HIDTA Executive Board is responsible for designing and implementing initiatives for the specific drug trafficking threats in its region. Intelligence and information sharing are key elements of all HIDTA programs.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$253,000,000 for the HIDTA Program. The Committee believes that the HIDTA program has demonstrated its effectiveness and can serve as an important tool in combating problems of drug trafficking and drug-related violence.

The Committee includes language requiring that existing HIDTAs receive funding at least equal to the fiscal year 2016 level unless the Director submits a justification for doing otherwise to the Committees on Appropriations, based on clearly articulated priorities and published performance measures.

The recommendation includes language directing ONDCP to notify the Committees on Appropriations of the initial allocation of HIDTA funds no later than 45 days after enactment, and to notify the Committees of the proposed use of funds no later than 90 days after enactment. The language directs the ONDCP Director to work in consultation with the HIDTA Directors in determining the uses of that discretionary funding.

Finally, the Committee recommendation specifies that up to \$2,700,000 may be used for auditing services and related activities.

Within this account, the Committee recommends \$2,000,000 for drug court training and technical assistance and \$9,500,000 for anti-doping activities. Anti-doping activities support athlete drug testing programs, research initiatives, educational programs, and enforce compliance with the World Anti-Doping Code. The Committee recommends a total of \$6,955,503,000 in discretionary funding for the Judiciary in fiscal year 2017.

In addition to direct appropriations, the Judiciary collects various fees and has certain multiyear funding authorities. The Judiciary uses these non-appropriated funds to offset its direct appropriation requirements. Consistent with prior year practices and section 608 of this Act, the Committee expects the Judiciary to submit a financial plan, within 60 days of enactment of this Act, allocating all sources of available funds including appropriations, fee collections, and carryover balances. This financial plan will be the baseline for purposes of reprogramming notification.

Improving the physical security at buildings occupied by the Judiciary and U.S. Marshals Service (USMS) and ensuring the integrity of the judicial process by providing secure facilities to conduct judicial business is a priority for the Committee. Under the General Services Administration's (GSA) Federal Buildings Fund appropriation, the Committee recommends \$26,700,000 for the Judiciary Capital Security program for alterations to improve physical security in buildings occupied by the Judiciary and USMS.

BUREAU OF CONSUMER FINANCIAL PROTECTION

ADMINISTRATIVE PROVISIONS

Five-Member Commission.—The CFPB has oversight over a wide range of consumer financial products. As such, the CFPB’s activities have the potential to significantly affect consumers’ access to credit and the operations of both banks and nonbanks. The Committee believes the Dodd-Frank Wall Street Reform and Consumer Protection Act provides inadequate checks on the CFPB’s powers. The Committee’s experience overseeing the Federal Communications Commission, the Federal Trade Commission, the Securities and Exchange Commission, the Consumer Product Safety Commission, and other Federal agencies with powers to protect consumers

and investors leads the Committee to conclude that a five-member commission is more suitable for guiding the CFPB than a single director. A commission ensures that multiple disciplines, experiences, and perspectives are brought to bear on CFPB rules, policies, and enforcement actions. The appointment and removal process and staggered terms of commissioners can provide checks and balances to an agency's operations and priorities, as well as a measure of continuity that a single director cannot. The Committee includes section 505 to address this issue.

Arbitration.—The Committee has included bill language that prohibits any funding to be used by the CFPB and restricts the legal effectiveness of any rule or regulation finalized by the CFPB to regulate pre-dispute arbitration agreements, including any rules or guidelines pursuant to section 1028(b) of Public Law 111–203 (12 U.S.C. 5518(b)), until the CFPB fully complies with requirements regarding pre-dispute arbitration as follows.

Prior to completion of the study and before preparation of the report to Congress, the Bureau shall issue a public notice identifying with specificity the topics that may be addressed in the report and soliciting public comment with respect to the appropriateness of addressing those topics, and any additional topics that should be addressed in the report. After considering the comments, the CFPB shall publish a notice identifying with specificity the topics that may be addressed in the report and soliciting public comment, including empirical data, regarding those topics. The deadline for filing comments shall be no earlier than ninety days after publication of the notice in the Federal Register. The topics addressed in the report shall also include the following: (A) how, for the kinds of disputes that most consumers are likely to have, the accessibility, cost, fairness, and efficiency of the process afforded by litigation compares to the accessibility, cost, fairness, and efficiency of the process afforded by pre-dispute arbitration; (B) the extent to which arbitration and litigation encourage companies to resolve disputes before their customers file formal claims; (C) whether consumers' use of arbitration is adversely affected by a lack of information and the steps that could be taken to better inform consumers about arbitration and to make arbitration more accessible to consumers; (D) the extent to which private class action proceedings on behalf of consumers regarding consumer financial products and services will provide net benefits to consumers in light of the CFPB's enforcement and examination authority; (E) the extent to which particular limitations or conditions on the use of pre-dispute arbitration will have the practical effect of eliminating pre-dispute arbitration; and (F) the impact on cost and availability of credit to consumers and small businesses of prohibiting or limiting pre-dispute arbitration.

After it has adopted tentative conclusions, but before those conclusions have been finalized, the CFPB shall publish those conclusions together with sufficient supporting and explanatory information, and solicit public comment regarding the tentative conclusions. The deadline for filing comments shall be no earlier than forty-five days after publication of the tentative conclusions. The CFPB shall consider the public comments in formulating its final conclusions and shall explain in the report to Congress its reason for disagreeing with significant comments. In carrying out the study, the CFPB shall use a research process that includes peer re-

view of the CFPB's methodology and findings by a diverse group of individuals with relevant expertise in quantitative and qualitative research methods from the private and public sectors. The Director of the CFPB shall select individuals whose expertise in research methods is unrelated to dispute resolution. The composition of the peer review panel shall be subject to the procedures for a rulemaking under section 553 of title 5, United States Code, including its procedures for notice and comment. No political appointee may participate on a peer review panel. The Director of the CFPB shall promulgate a conflict of interest policy that ensures public transparency and accountability, and requires full disclosure of any real or potential conflicts of interest on the parts of individuals that participate in the peer review process. The term "political appointee" means any individual who is employed in a position described in sections 5312 through 5316 of title 5, United States Code (relating to the executive schedule); is a limited term appointee, limited emergency appointee, or non-career appointee in the Senior Executive Service, as defined under paragraphs (5), (6), and (7), respectively, of section 3132(a) of title 5, United States Code; is employed in a position in the executive branch of the Government of a confidential or policy-determining character under schedule C of subpart C of part 213 of title 5, Code of Federal Regulations; or is employed in a position described in section 1011(b) of Public Law 111-203 (12 U.S.C. 5491(b)).

When the CFPB submits the report to Congress, the CFPB shall at the same time make publicly available a description of the peer review process, including an explanation of the peer review panel's conclusions about the CFPB's methodology and findings, sufficient to provide a basis for judicial review under section 706 of title 5 United States Code, of the report's conclusions to the extent the CFPB sought to use them as the basis for a proposed or final regulation under section 1028(b) of Public Law 111-203 (12 U.S.C. 5518(b)). The deadline for filing comments shall be no earlier than ninety days after publication of the notice in the Federal Register. In addition, in determining whether any rule or final regulation implementing a prohibition or imposition of conditions or limitations on the use of an agreement between a covered person and a consumer for a consumer financial product or service providing for arbitration of any future dispute between the parties is in the public interest and for the protection of consumers, the CFPB shall consider the costs and benefits to consumers including: (1) the practical effect on consumers' access to low cost, fair, and efficient means of resolving claims for the types of injuries that consumers most often incur and that are less likely to be the subject of government enforcement actions; (2) the extent to which private class action proceedings on behalf of consumers regarding consumer financial products and services provide net benefits to consumers in light of the CFPB's and other regulators' enforcement and examination authority; (3) the practical effect of any proposed or final regulation on the availability of pre-dispute arbitration; and (4) the impact of any proposed or final regulation on the cost and availability of credit to consumers and small business. The CFPB shall make a determination based on the information before it that the demonstrable benefits of any proposed or final regulation or rule to consumers outweigh the costs to consumers, taking into account

the factors enumerated just above and other relevant factors; and, the rule subjects pre-dispute arbitration to no more regulation than is necessary to serve the public interest and protect consumers. Such determinations, together with the CFPB analysis and underlying data, shall be published in the Federal Register.

Small Institutions Exemption.—The Committee believes the CFPB should strongly consider the impact the Bureau’s rules have on small institutions, like community banks and credit unions. While these entities are not under direct supervisory oversight by the Bureau, they are still required to comply with rules written for entities many times their size. The Committee is concerned the Bureau may be unintentionally burdening community-based financial institutions and limiting their ability to provide consumer credit. The Dodd-Frank Act gave the Bureau explicit power in section 1022 to tailor its regulations to exempt “any class” of entity from individual rulemakings. To date, the CFPB has made very limited use of this authority. The Committee believes that the CFPB must do more in this area to better tailor its rules to ensure that the Bureau’s regulations do not unnecessarily burden smaller institutions.

The Committee directs the Bureau to report to the Committees on Appropriations of the House and Senate, the Committee on Financial Services of the House, and the Committee on Banking, Housing, and Urban Affairs of the Senate, within 120 days of enactment of this Act, on how it has used its authority under section 1022 in rulemakings to exempt certain classes, any plans to revisit previous rulemakings to more carefully tailor or grant exemptions to rules that have been especially burdensome, and the process for the Bureau to consider exemptions to community institutions in future rulemakings.

Short-term Lending.—The Committee supports meaningful safeguards to prevent predatory lending practices in the short-term lending market. However, the Committee believes the Bureau has not carefully balanced existing regulatory frameworks within States and the need to provide consumers with access to a range of short-term financial services products. In order to ensure viable credit options for all consumers, the Committee believes the Bureau needs to better engage stakeholders, including States with robust statutes in this area, in an open and transparent manner as the Bureau considers any proposed rules. The Committee expects the Bureau to base any regulatory action on complete data and sound analysis, taking into consideration successful State models which have encouraged lending practices that are fair and transparent without restricting access to credit.

State-based Insurance.—The U.S. has a strong history of promoting State-based regulation of the business of insurance. The Committee remains concerned about preemption of these effective State-based regulatory models, including those products that help consumers manage the risks associated with owning a motor vehicle. Furthermore, the Committee supports these products being regulated by State insurance commissioners and reiterates that they are exempt under the Dodd-Frank Act from direct oversight by the Consumer Financial Protection Bureau (CFPB).

Manufactured Housing.—The Committee does not support abusive home financing practices. However, the Committee is concerned that since Dodd-Frank, new tests for high-cost loans are

pricing consumers out of the market, particularly for homes valued at \$250,000 and below. The Committee believes this especially affects consumers who want to purchase manufactured homes. Credit for these consumers should not be reduced because of overregulation by the Federal Government.

Indirect Auto Lending.—The Committee is concerned the Bureau’s recent actions related to auto lending are reducing competition, regulating auto dealers—over which the Bureau has no jurisdiction—and raising costs to consumers. The Committee strongly supports fair lending protections for consumers but believes that the Bureau needs to act within the law established by Congress and believes that there are significant deficiencies in the Bureau’s statistical methodology and approach to enforcing the Equal Credit Opportunity Act with regard to indirect auto lending.

Qualified Mortgages.—The Committee is supportive of recent efforts to allow for residential mortgages held in portfolio by lenders to be recognized as qualified mortgages for the purposes of the Bureau’s mortgage lending rules. These efforts would especially help community bankers and credit unions who have decreased their mortgage lending business in recent years due to onerous regulatory requirements.

In addition, the Committee supports efforts to clarify the definition of “points and fees” for qualified mortgages in order to improve access to credit for low and moderate income borrowers. The change in definition under Dodd-Frank has caused many borrowers to be unable to obtain a qualified mortgage, causing higher costs and less convenience for the consumers.

Financial Literacy.—The Committee directs the CFPB, in consultation with the Financial Literacy and Education Commission, to report to the Committees on Appropriations of the House and Senate, not less than one year after enactment of this Act, on the feasibility of designating qualified institutions, like universities, State and local educational agencies, and qualified nonprofit agencies or financial institutions as centers of excellence to develop and implement effective financial literacy programs.

The Committee includes the following provisions in the bill:

Section 501. The Committee repeals the prohibition against the Committees on Appropriations reviewing transfers from the Federal Reserve System to the CFPB. Congress has a duty to examine and critique the activities of the CFPB, especially since its expenditures, like any other Federal agency, contribute to a growing Federal debt.

Section 502. The Committee changes the CFPB’s source of funding from transfers from the Federal Reserve System to annual appropriations beginning in fiscal year 2018. Under the Dodd-Frank Wall Street Reform and Consumer Protection Act, the CFPB can spend more than half a billion dollars without an annual review by Congress. The Committee believes the CFPB needs oversight as much as banks and nonbanks do and further reminds the CFPB to remain steadfast to its mission to promote fairness and transparency for mortgages, credit cards, and other consumer financial products and services and not to stray into consumer advocacy.

Section 503. The Committee repeats, with modifications, a provision enacted in fiscal year 2016 that requires CFPB to notify the Committees on Appropriations of the House and Senate, the Com-

mittee on Financial Services of the House, and the Committee on Banking, Housing, and Urban Affairs of the Senate of requests for a transfer of funds from the Federal Reserve System.

Section 504. The Committee directs the CFPB to submit quarterly reports on its activities and to testify on its activities when requested. The report shall include, among other things, how the CFPB allocates its funds and staff.

Section 505. The Committee changes the management of the CFPB to a five-member Board of Directors, to be appointed by the President and approved by the Senate. Most financial regulatory agencies have a five-member commission or board. More voices at the top of the Bureau’s management structure will help the CFPB become attuned to more diverse viewpoints.

Section 506. The Committee prohibits the CFPB from implementing a rule regarding the use of arbitration until the Bureau addresses certain requirements.

CONSUMER PRODUCT SAFETY COMMISSION

SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$125,000,000
Budget request, fiscal year 2017	130,500,000
Recommended in the bill	120,000,000
Bill compared with:	
Appropriation, fiscal year 2016	– 5,000,000
Budget request, fiscal year 2017	– 10,500,000

The Consumer Product Safety Act established the Consumer Product Safety Commission (CPSC), an independent Federal regulatory agency, to reduce the risk of injury associated with consumer products.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$120,000,000 for the CPSC for fiscal year 2017. Within the amount provided under this heading, \$1,000,000 is for CPSC to establish three advisory committees to address (1) the importation of products within CPSC’s jurisdiction (2) consumer product recalls (3) public disclosures of information. Each advisory committee shall consist of 20 members appointed by the Chairperson of the Commission and approved by a majority of Commissioners; meet at least once per quarter and submit a quarterly report to the Commission, the Committees on Appropriations of the House of Representatives and the Senate, the Committee on Energy and Commerce of the House, and the Committee on Commerce, Science, and Transportation of the Senate. Not later than 30 days after the second quarterly meeting of an advisory committee, each such advisory committee is directed to submit a report on the findings of the advisory committee to the Committees on Appropriations of the House of Representatives and the Senate, the Committee on Energy and Commerce of the House, and the Committee on Commerce, Science, and Transportation of the Senate. These advisory committees will terminate at the end of fiscal year 2017.

Test Burden Reduction.—In fiscal years 2015 and 2016, the Committee provided the Commission a total of \$2 million for the specific purpose of carrying out the congressionally mandated respon-

sibility of reducing the burden associated with third-party testing rules. The Committee is frustrated that there has been no real tangible relief to small businesses despite the amount of resources the Commission has been provided. The CPSC has identified a significant number of opportunities for test burden reduction, however, to date nothing in the way of meaningful burden reduction has been accomplished. The Committee directs the Commission to continue to provide quarterly reports updating the Committees on Appropriations of the House and Senate on its efforts to reduce the costs of third-party testing, including any that the Commission has chosen not to pursue.

Voluntary Recall.—The Committee remains concerned about proposed changes to the voluntary recall system that would serve to negatively impact small businesses. Despite overwhelming opposition, the Commission continues to move forward with a final rule on voluntary recalls. The Committee opposes making unnecessary changes to a recall system that has worked well over the past 40 years, owing to a successful partnership between businesses and the Commission. To that end, the Committee prohibits funds to finalize, implement, or enforce the proposed rule on voluntary recalls.

Public Disclosures of Information.—Section 6(b) of the Consumer Product Safety Act (CPSA) requires CPSC to take reasonable steps to ensure that any disclosure of information relating to a consumer product safety incident is accurate and fair. The Committee remains concerned that the Commission is proceeding with a proposed rule on section 6(b) that threatens to undermine a successful partnership based on openness and trust between industry and the Commission. The Committee cautions the Commission about making changes to a process that has succeeded in both protecting the consumer against harm and protecting industry against inaccurate disclosures of information before an investigation has been completed. Consequently, the Committee prohibits funds to finalize, implement, or enforce the proposed rule on information disclosures under Section 6(b).

Window Coverings.—The Committee continues to support the cooperative efforts of CPSC and the window coverings industry to educate consumers on window covering safety. The Committee encourages continued cooperation between CPSC and industry on developing voluntary standards for its products through the current voluntary standards setting process.

Pool and Spa Safety.—The Committee commends the CPSC for continuing to provide resources for the national and grassroots “Pool Safely” campaign, a safety information and education program designed to reduce child drownings and near-drowning injuries and maintain a zero fatality rate for drain entrapments. This multifaceted initiative includes consumer and industry education efforts, press events, partnerships, outreach, and advertising. The Committee provides \$1,000,000 for the Pool Safely campaign.

In fiscal year 2016, the Commission awarded five local governments more than \$780,000 for pool and spa safety grants established by the Virginia Graeme Baker Pool and Spa Safety Act. The funding will provide assistance to local governments for education, training, and enforcement of pool safety requirements that are intended to save lives and prevent serious injuries. The Committee

applauds the Commission’s efforts to distribute guidance and model legislation to assist all states in becoming active participants in the enforcement and education of the Virginia Graeme Baker Pool and Spa Safety Act.

Flame Retardant Chemicals.— As the Commission considers new upholstered furniture flammability standards, the Committee encourages the Commission to take steps to reduce or limit the use of flame retardant chemicals.

ADMINISTRATIVE PROVISION—CONSUMER PRODUCT SAFETY
COMMISSION

Section 510. The Committee continues language prohibiting funds to finalize, implement, or enforce the proposed rule on recreational off-highway vehicles until a study is completed by the National Academy of Sciences.

ELECTION ASSISTANCE COMMISSION

SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$9,600,000
Budget request, fiscal year 2017	9,800,000
Recommended in the bill	4,900,000
Bill compared with:	
Appropriation, fiscal year 2016	– 4,700,000
Budget request, fiscal year 2017	– 4,900,000

The Election Assistance Commission (EAC) was established by the Help America Vote Act of 2002 (HAVA) and is charged with implementing provisions of that Act relating to the reform of Federal election administration.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$4,900,000 for the Salaries and Expenses of the EAC.

The Committee strongly supports the successful administration of Federal elections and the Help America Vote Act (HAVA) of 2002. However, the Committee believes the EAC is no longer effectively carrying out its mandate. At present, one seat remains vacant and the agency has been operating without legislative authorization since 2005. For six years the Administration has not requested additional grant funding for HAVA grants, and there is currently less than \$10 million left in grants to distribute. The work of the EAC consists largely of auditing HAVA grant money previously distributed, some of which is carried out by the EAC Inspector General, and examining new voting technologies, the technology aspects of which are performed by the National Institute of Standards and Technology and private testing laboratories.

In February 2013, rather than turn to the EAC, the President chose to form a new ad hoc commission by Executive Order to review and propose best practices related to concerns from the 2012 elections regarding polling place wait times, and military and overseas voting.

This Committee is not advocating doing away with the changes made to voting law in HAVA. Rather, the Committee believes these laws do not require an independent Federal agency. The Committee supports legislation that was introduced in the 114th Con-

gress and reported by the Committee on House Administration to terminate the EAC.

FEDERAL COMMUNICATIONS COMMISSION

SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$384,012,000
Budget request, fiscal year 2017	358,286,000
Recommended in the bill	314,844,000
Bill compared with:	
Appropriation, fiscal year 2016	– 69,168,000
Budget request, fiscal year 2017	– 43,442,000

The mission of the Federal Communications Commission (FCC) is to implement the Communications Act of 1934 and assure the availability of high quality communications services for all Americans.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$314,844,000 for the Salaries and Expenses of the FCC, all of which is to be derived from offsetting collections.

The Committee recommendation includes bill language, similar to language included in previous Appropriations Acts, which allows: (1) up to \$4,000 for official reception and representation expenses; (2) purchase and hire of motor vehicles; (3) special counsel fees; (4) collection of \$314,844,000 in section 9 fees; (5) a prohibition on amounts collected in excess of \$314,844,000 from being available for obligation; (6) a prohibition on remaining offsetting collections from prior years from being available for obligation; (7) a cap of \$106,000,000 for the administration and implementation of incentive auctions, as required by P.L. 112–96; and (8) provides not less than \$11,751,000 for the Office of the Inspector General. The Committee notes its support for the Office of Engineering and Technology.

Net Neutrality/Open Internet.—The Committee has purposefully kept funding for the FCC flat since fiscal year 2012 to keep the agency focused on mission-critical work. Instead, the FCC has prioritized politically polarizing rulemakings at the expense of the important work the Commission has to do. The U.S. has four times more capital investment in broadband, twice as much investment in mobile services, and more competition and access to high-speed networks than Europe. At a time when U.S. innovation, investment, and demand in this area is expanding, it is truly concerning that the FCC would act to limit both future investment and, potentially, consumer choice. With an increased level of competition in the marketplace, there should be less need for regulation. The internet has been an unparalleled catalyst for innovation, yet the FCC has voted to constrain and control something that has brought about innumerable technological advancements and American jobs.

The Committee has included sections 630, 631, and 632 to address some of these concerns.

Incentive Auction.—The Middle Class Tax Relief and Job Creation Act of 2012 (P.L. 112–96) authorized the FCC to conduct a voluntary broadcast incentive auction and Congress allocated \$1.75 billion to reimburse the service and equipment costs of channel re-

location incurred by the television broadcast industry, such as changes to antennas, transmitters, transmission lines, and towers. The Committee is aware of concerns about the length of time and funds available to broadcasters to repack stations at the conclusion of the incentive auction. The Committee intends to monitor this issue closely. Both broadcasters and those purchasing spectrum must participate in good faith for the incentive auction to be successful. The Committee supports the Commission's administration of these auctions and expects the FCC to take into careful consideration any participating entity's concerns. The Committee has consistently supported the incentive auction and expects the FCC to continue to work toward its success.

Auction Administration.—The Committee has been supportive of the FCC's administration of the incentive auction, as required by Public Law 112–96, and recognizes the substantial work associated with the implementation of these auctions. Over the past three years, the Committee has increased the FCC's auction administration cap in order to support the administration of the incentive auction. However, the Committee is concerned the Commission may have confused increased funding for a specific time-limited activity with increased funding in general. Any increase in funding for auction administration is less funding for deficit reduction. The FCC should carefully consider any further requested increases to the auction administration cap and provide sufficient justification for the increase in funding.

In addition, the Committee believes greater budget transparency is still needed in order to better understand how the use of these funds fits into the Commission's overall budget request. In fiscal year 2015, the Committee directed the Commission to provide annually in the budget submission a detailed justification on how the Commission intends to spend these funds, including FTE levels and programmatic initiatives. The Committee believes the disclosures of how auction administration funds are spent is an important part of its oversight of the Commission and directs the FCC to continue to include a detailed justification in its annual budget submission and to make the detailed report on the use of auction funds publicly available on the Commission's website.

Enforcement.—The Committee is concerned that the penalties the Commission has imposed in recent years are less tied to the evidence of harm and clear metrics, and more to bring attention to the Commission. While the Committee generally supports FCC's efforts in protecting consumers, the Commission must be cognizant of its responsibility to find clear evidence of violations before imposing penalties, and to provide the subject of an enforcement action adequate prior notice and the opportunity to respond to the alleged violation. If the Commission finds evidence of wrongdoing, the Committee expects the Commission to collect fines in a timely manner.

Fines.—The Committee is concerned that the Commission is not collecting fines in a timely manner, potentially rendering fines uncollectable due to the statute of limitations. Beginning not later than 90 days after enactment of this Act, the FCC shall submit quarterly reports to the Committees on Appropriations of the House and Senate, the Committee on Energy and Commerce in the House, and the Committee on Commerce, Science, and Transport-

tation in the Senate on the status of its efforts on tracking and collecting monetary penalties assessed by the agency. The reports shall include a list of all Notices of Apparent Liability (NALs) pending, including the date it was issued; all NALs released, including the date of release; all forfeiture orders pending, including the date it was issued; all forfeiture orders released, including date of release and date upon which payment is due; all timely paid forfeiture orders; all forfeiture orders referred to the Department of Justice for collection, including date of referral; all consent decrees, including date adopted; and all consent decrees that have resulting in a payment, including date of payment. Additionally, for each of the items listed above, the Commission shall provide the date on which the U.S. Government will no longer be able to effectively prosecute the alleged violation as a result of the statute of limitations. The initial report shall also include a description of the FCC's collection process.

Set-Top Boxes.—The Committee has strong concerns with the recent proposal related to set-top boxes. While the Committee supports advances in technology in this area that benefit consumers, the Committee believes the Commission's proposal falls short, especially with regard to privacy and copyright concerns. Consumer privacy and legal copyright concerns are not adequately addressed in the FCC's proposal, nor is the clear fact that most set-top boxes will be obsolete in the coming years. It seems that technology and active marketplace competition are outpacing the Commission's rulemakings. The Committee strongly encourages the Commission to further review its proposal for the widespread impact it may have on consumer privacy, all parties in the video programming marketplace, content diversity, and intellectual property and content licensing. These impacts should be carefully studied and considered before the Commission moves forward with any final rule. The Committee has included section 636 to address this issue.

Telephone Consumer Protection Act.—The Committee believes that the FCC must do more to ensure that consumers are able to receive important notifications and timely updates about financial developments that will impact their existing accounts at depository institutions. The Committee is concerned that the FCC's recent Order related to the Telephone Consumer Protection Act (TCPA) will make it more difficult for financial institutions to contact their members about identity theft or data breaches. While the FCC adopted an exemption for "free end user calls" made by financial institutions, specifically for the purpose of: (1) calls intended to prevent fraudulent transactions or identity theft; (2) data security breach notifications; (3) measures consumers may take to prevent identity theft following a data breach; and (4) money transfer notifications, there is still a great deal of confusion. The Committee strongly encourages the FCC to revisit the Order and address technical questions that have been raised that may be impossible for a financial institution to resolve, such as whether or not the consumer will be charged for such texts or calls by their plan provider, or if they will count against their plan limits. The Committee also believes that the FCC should provide more flexibility to the prescriptive requirements for financial institutions using this exemption, especially because this exemption was meant to apply in exigent circumstances to protect consumers. The Committee notes the

Commission currently has a number of outstanding petitions to clarify its TCPA Order.

Broadband Access.—The Committee strongly encourages the FCC to continue to work with the Universal Service Administrative Company (USAC) to allocate Universal Service Funds for broadband expansion, especially in areas that could most benefit from increased job opportunities that can come from access to broadband. In particular, the Committee believes the Commission should support and focus efforts on broadband expansion in rural and economically disadvantaged areas in order to maximize the use of USF funds. The Committee believes the deployment of broadband in rural and economically disadvantaged areas is a driver of economic development and jobs and expects the Commission to prioritize these efforts.

Rate floor.—As the Commission works to complete a rule to develop a “rate floor” methodology, the Committee encourages the Commission to be sure the methodology is more reflective of the effective value of local voice telephony service to a given customer in high-cost rural areas (including the number of other customers that can be reached via a local call) and that ultimately sets the “rate floor” at a range below the national average of local urban rates plus state regulated fees for such service that better reflects reasonable comparability of local voice telephony rates as required by law.

Universal Service.—In recognition of the ongoing rapidly changing communications industry landscape, the Committee believes it is imperative that the Federal State Joint Board on Universal Service identify and provide Universal Service Fund (USF) contributions reform recommendations to the FCC. The committee further urges that such recommendations should expressly recognize that continuing to base contributions only on legacy telecommunications services revenues (and a limited number of other service revenues) will undermine, and ultimately threaten universal access to advanced communications by eroding the sustainability of the USF program and placing unfair and inequitable burdens for support of the program on a small subset of communications network users.

Universal Service Fund High Cost Program.—The Committee believes the Commission should continue to move toward concluding its work of updating the rate-of-return distribution mechanism of the Universal Service Fund (USF) High Cost program in a manner that is consistent with the statutory mandate of providing specific, predictable, and sufficient support to ensure universal access to reasonably comparable services at reasonably comparable rates. The reformed mechanism should allow rural consumers to purchase standalone broadband at affordable rates, and support the construction, maintenance, and operation of networks that can be efficiently upgraded over time to keep pace with consumer needs. The FCC should also be mindful of the potential impacts of any reforms on other important federal governmental programs, such as those administered by the Rural Utilities Service (RUS), which promote and sustain the deployment of broadband-capable networks to customers in rural areas, particularly given that such impacts could also adversely affect the Federal budget. Finally, the Commission should work quickly and collaboratively with Congress, the

RUS, other agencies, and other affected stakeholders if any adverse or negative unintended consequences arise out of the reforms.

Call Completion.—The FCC shall submit a report to the Committees on Appropriations of the House and Senate within 90 days of enactment of this Act detailing the agency’s efforts to resolve call completion issues and to prevent discriminatory delivery of calls to any area of the country.

Territories and Tribal Lands.—The Committee is concerned about the disparity in access to broadband between the territories, tribal lands, and the 50 states. The Committee encourages the Commission to implement policies that increase broadband access and adoption in these areas.

Vacant Channels.—The Committee is concerned about the FCC’s “vacant channel” proceeding, in which the FCC contemplates setting aside additional broadcast television spectrum after the broadcast incentive auction for unlicensed use. The broadcast spectrum the Commission is considering for unlicensed could otherwise meet demand for LPTV and translator licenses in the post-auction broadcast band. While the Committee recognizes the value of unlicensed spectrum to our national information economy, LPTV and translators also serve an important role in serving rural and underserved television viewing audiences. Given the uncertainty LPTV and translator licensees face at the end of the incentive auction, the FCC should not pursue additional unlicensed spectrum in the broadcast band at the expense of LPTV and translator licensees until the incentive auction is complete, so that it can accurately assess the need for spectrum to serve communities with LPTV stations and translators.

The Federal Election Commission (FEC) administers the disclosure of campaign finance information, enforces limitations on contributions and expenditures, and performs other tasks related to Federal elections.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$80,540,000 for the Salaries and Expenses of the FEC.

In fiscal year 2016, the Committee provided the FEC with \$5,000,000 for costs associated with a facilities relocation, and provides an additional \$8,000,000 in fiscal year 2017. The Committee is supportive of providing the FEC with adequate resources for its facilities and expects future funding requests to be reduced.

FEDERAL LABOR RELATIONS AUTHORITY

Established by title VII of the Civil Service Reform Act of 1978, the Federal Labor Relations Authority (FLRA) serves as a neutral arbiter in the labor activities of non-postal Federal employees, Departments and agencies, and Federal unions on matters outlined in the Act, including collective bargaining and the settlement of disputes. Establishment of the FLRA gives full recognition to the role of the Federal Government as an employer. Under the Foreign Service Act of 1980, the FLRA also addresses similar issues affecting Foreign Service personnel by providing staff support for the Foreign Service Impasse Disputes Panel and the Foreign Service Labor Relations Board.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$26,631,000 for the FLRA for fiscal year 2017.

FEDERAL TRADE COMMISSION

The mission of the Federal Trade Commission (FTC) is to enforce a variety of Federal antitrust and consumer protection laws. Appropriations for both the Antitrust Division of the Department of Justice and the Commission are partially financed by Hart-Scott-Rodino Act pre-merger filing fees. The Commission's appropriation is also partially offset by Do-Not-Call registry fees.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$317,000,000 for the Salaries and Expenses of the FTC. The Congressional Budget Office estimates \$125,000,000 of collections from Hart-Scott-Rodino premerger filing fees and \$15,000,000 of collections from Do-Not-Call list fees will partially offset the appropriation requirement for this account.

Deceptive Online Marketing.—The Committee remains concerned that certain market conditions create incentives for fraudulent and deceptive online activity associated with third-party online hotel resellers or affiliates that do not have direct contractual relationship with hotel companies. The Committee believes the FTC should further investigate deceptive online advertising that misleads consumers into mistakenly providing their credit card information to fraudulent online websites purporting to be a hotel's website or online booking portal. Financial harm to the consumer is significant and growing as more consumers utilize internet booking from mobile devices. The Committee directs the Commission to study the mobile and online hotel booking market focusing on deceptive activity associated with third party online hotel resellers or affiliates that do not have a contract with a hotel company. The Committee directs the Commission to report back to the Committees on Appropriations of the House and Senate within 90 days of enactment on recommended enforcement actions against deceptive marketers engaging in the online hotel booking market and appropriate remedies to apply in this area to protect consumers from falling victim to these scams.

Credit Education.—The Committee believes that consumers should be able to obtain personalized, legitimate credit education products and tools in order to improve their financial health. However, the Committee is concerned that the broad scope of the Credit Repair Organizations Act (CROA) has created a barrier for legitimate companies from being able to provide these valuable services in a consumer-friendly manner. The Committee directs the FTC to report to the Committees on Appropriations of the House and Senate, the Committee on Energy and Commerce of the House, the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Financial Services of the House, and the Committee on Banking, Housing, and Urban Affairs of the Senate, not later than 120 days after the date of enactment of this Act, on the benefits of consumer access to credit education and improvement services, and the extent to which CROA impedes the research, development, and provision of new credit education products, services, and technology in the marketplace by consumer reporting agencies as defined by the Fair Credit Reporting Act and other entities. The FTC shall publish the report on its website.

Contact Lenses.—The Committee is aware of the FTC's ongoing review of its contact lens rule and directs the Commission to keep

the Committee apprised of any findings regarding patient safety and enforcement of consumers' rights.

Agency Overlap.—The creation of the Bureau of Consumer Financial Protection (CFPB) transferred some areas of consumer protection jurisdiction that were once the sole purview of the FTC to the CFPB. The Committee is aware of the Memorandum of Understanding signed by both the CFPB and the FTC and understands that the agencies consult on areas of common jurisdiction, such as debt collection. However, the Committee intends to continue to monitor this issue as duplicative efforts in regulatory rulemaking and enforcement activities waste agency resources, and could place unnecessary burdens on businesses, the economy, and the American taxpayer. The Committee expects the FTC to continue to ensure duplicative efforts on rulemakings are avoided before agency resources are wasted.

GENERAL SERVICES ADMINISTRATION

The Committee continues several reporting requirements for the General Services Administration (GSA) for fiscal year 2017.

Takings and Exchanges.—Using existing statutory authorities, GSA has been working to dispose of properties that no longer meet the needs of Federal agencies in exchange for assets of like value. Some of these exchanges are very complex in nature and involve multi-year, multi-party, and multi-billion dollar contracts. In addition, GSA also has the statutory authority to take properties. The Committee believes in some instances employing such authorities can result in savings to the taxpayer when appropriately executed and wants to be kept informed of these activities. In order to provide increased transparency for the use and planned use of these authorities, the Administrator is directed to report to the Committees on Appropriations of the House and Senate not later than 30 days after the end of each quarter on the use of these authorities. The report shall include a description of all takings and exchange actions that occurred or were considered during the most recently completed quarter of the fiscal year, including the costs, benefits, and risks for each action. The report shall also include the planned or considered use of takings and exchange authorities during the remainder of the fiscal year, including the costs, benefits, and risks of each action.

Spending Report.—Within 50 days after the end of each quarter, GSA shall submit spending reports to the Committees on Appropriations of the House and Senate. The reports shall include actual obligations incurred and estimated obligations for the remainder of the fiscal year for each appropriation in the Federal Buildings Fund and regular discretionary appropriations. The reports shall include obligations by object class, program, project and activity.

State of the Portfolio.—Not later than 45 days after the date of enactment of this Act, the Administrator shall submit to the Committees on Appropriations of the House and Senate a report on the state of the Public Buildings Service's real estate portfolio for fiscal year 2016. The content included in the report shall be comparable to the tabular information provided in past State of the Portfolio reports, including, but not limited to, the number of leases; the number of buildings; amount of square feet, revenue, expenses by type, and vacant space; top customers by square feet and annual

rent; completed new construction, completed major repairs and alterations, and disposals, in total and by region where appropriate.

Land Ports of Entry State of the Portfolio.—Within 90 days of the date of enactment of this Act, GSA is directed to provide the Committees on Appropriations of the House and Senate a report on the state of the land ports of entry portfolio. The content of this report shall include, but shall not be limited to, a prioritized list of new construction and major repairs and alterations projects.

Activities Report.—The Committee directs GSA to submit a report no later than 120 days after the enactment of this Act regarding how it ensures an appropriate level of minority, women, and veteran owned firms’ participation in its facilities and procurement activities.

Courthouse Construction.—The Committee provided significant funding for new courthouse construction in fiscal year 2016. The Committee is encouraged by the collaborative working relationship of the Administrative Office of the U.S. Courts, the U.S. Marshals Service, and GSA to ensure construction projects are completed on schedule and on budget.

Alamo Mission.—The State of Texas is working to develop a Master Plan for the Alamo Mission that will preserve and interpret this historic shrine for future generations. With Federally-owned buildings located adjacent to the Alamo Mission, the Committee encourages the GSA to be an active participant in the development of a Master Plan, including offering federal property for lease or sale to the State of Texas for fair market value.

LIMITATIONS ON AVAILABILITY OF REVENUE
(INCLUDING TRANSFERS OF FUNDS)

Limitations on Availability of Revenue:	
Limitation on availability, fiscal year 2016	\$10,196,124,000
Limitation on availability, budget request, fiscal year 2017	10,178,338,000

Bill compared with:	
Availability limitation, fiscal year 2016	– 951,316,000
Availability limitation, fiscal year 2017 request	– 933,530,000

The Federal Buildings Fund (FBF) accounts for the activities of the Public Buildings Service (PBS), which provides space and services for Federal agencies in a relationship similar to that of landlord and tenant. The FBF, established in 1975, replaces direct appropriations with income derived from rent assessments, which approximate commercial rates for comparable space and services. The Committee makes funds available through a process of placing limitations on obligations from the FBF as a way of allocating funds for various FBF activities.

COMMITTEE RECOMMENDATION

The Committee recommends a limitation on the availability of funds of \$9,244,808,000 for the FBF.

To carry out the purposes of the FBF, the revenues and collections deposited into the FBF shall be available for necessary expenses in the aggregate amount of \$9,244,808,000 of which:

\$504,918,000 is for construction and acquisition, \$758,790,000 is for repairs and alterations, \$5,645,000,000 is for rental of space, and \$2,336,100,000 is for building operations.

Historically, prior to obligating funding for prospectus-level construction, alterations, or leases, the Administration has waited for the project to be authorized through a resolution approved by the Committee on Transportation and Infrastructure in the House and the Committee on Environment and Public Works in the Senate as required by title 40 of the United States Code and in accordance with the proviso included in the FBF appropriations limiting the obligation of funds to prospectus-level projects approved by the authorizing committees. The Committee supports this process and believes that prospectus-level projects warrant a thorough review from both the Appropriations Committee and the authorizing committees. The Committee expects the Administration to continue to follow this process.

CONSTRUCTION AND ACQUISITION

Limitations on Availability of Revenue:	
Limitation on availability, fiscal year 2016	\$1,607,738,000

Bill compared with:	
Availability limitation, fiscal year 2016	- 1,102,820,000
Availability limitation, fiscal year 2017 request	- 825,604,000

The construction and acquisition fund finances the project cost of design, construction, and management and inspection costs of new Federal facilities.

COMMITTEE RECOMMENDATION

The Committee recommends a limitation of \$504,918,000 for construction and acquisition:

- \$200,000,000 for the FBI Headquarters Consolidation;
- \$248,213,000 for the Calexico West, California, United States Land Port of Entry;

REPAIRS AND ALTERATIONS

Limitations on Availability of Revenue:	
Limitation on availability, fiscal year 2016	\$735,331,000
Limitation on availability, budget request, fiscal year 2017	841,617,000
Recommended in the bill	758,790,000
Bill compared with:	
Availability limitation, fiscal year 2016	+23,459,000
Availability limitation, fiscal year 2017 request	- 82,827,000

The repairs and alterations activity funds the project cost of design, construction, management and inspection for the repair, alter-

ation, and modernization of existing real estate assets in addition to various special programs.

COMMITTEE RECOMMENDATION

The Committee recommends a limitation of \$758,790,000 to remain available until expended for repairs and alterations.

Major Repairs and Alterations.—The Committee recommends \$300,000,000 for repairs and alterations projects that exceed the prospectus threshold. The funds are provided to address GSA’s highest priority facility needs. The Committee directs GSA to submit a detailed plan, by project, regarding the use of Major Repairs and Alterations funds, not later than 45 days after enactment of this Act. GSA is directed to provide notification to the Committees on Appropriations of the House and Senate within 15 days prior to any changes in the use of these funds.

Basic Repairs and Alterations.—The Committee recommends \$312,090,000 for non-recurring repairs and alterations projects between \$10,000 and the current prospectus threshold of \$2,850,000.

Fire and Life Safety.—The Committee recommends \$20,000,000 to improve building safety, abate hazardous material, and repair structural deficiencies. These projects include, but are not limited to, fire alarm, sprinkler, electrical, ventilation, heating, and elevator systems.

Judiciary Court Security Program.—The Committee recommends \$26,700,000 for the construction, acquisition, repair, alteration, and security projects for the Judiciary as prioritized by the Judicial Conference of the United States.

Consolidation Activities.—The Committee recommends \$100,000,000 for the cost of consolidating space. Given the reduction in the Federal workforce and Federal agency budgets, the Committee believes that it is prudent to reduce the GSA building inventory, particularly with regard to the thousands of surplus and underutilized buildings. The Committee appreciates the Administration’s commitment to “freeze the footprint” of the Federal Government (OMB management procedures memorandum 2013–02) by prohibiting increases in the total square footage of domestic offices and warehouses. Projects selected for consolidation should result in reduced annual rent paid by the agency, not exceed \$10,000,000 in costs, and have an approved prospectus. GSA is required to submit a spend plan and explanation for each project including estimated savings to the Committees on Appropriations of the House and Senate before obligating funds.

Federal Bureau of Investigation (FBI) Headquarters.—The Committee recommends \$200,000,000 for the FBI Headquarters consolidation.

In fiscal year 2016, the Committee provided GSA with \$75 million in recognition of the need for a new consolidated FBI Headquarters. However, GSA’s insistence on using its exchange authorities to fund the design and construction of a new headquarters through the sale of the J. Edgar Hoover Building is another example of weak property disposal. GSA’s request for \$1.4 billion for the FBI in fiscal year 2017 is evidence of its inexperience and inability to execute an exchange of this scale.

This Committee has consistently questioned whether an exchange was financially and practically advisable and whether

GSA's decision to forgo the normal disposal process would obtain the best deal for the taxpayer. To date, GSA has not provided the Committee with the total project cost, estimated costs of site acquisition, or its current valuation of the J. Edgar Hoover Building.

Furthermore, GSA has failed to explain the massive miscalculation of construction and acquisition costs compared to its original projection that the value of the Hoover building would more than pay for a new FBI Headquarters. The absence of a House Transportation and Infrastructure Committee approved prospectus for the FBI Headquarters consolidation casts further doubt about the exchange. The Committee is frustrated by the lack of detail regarding the project cost and expects GSA to be more forthcoming with information.

RENTAL OF SPACE

Limitations on Availability of Revenue:	
Limitation on availability, fiscal year 2016	\$5,579,055,000
Limitation on availability, budget request, fiscal year 2017	5,655,581,000
Recommended in the bill	5,645,000,000
Bill compared with:	
Availability limitation, fiscal year 2016	+65,945,000
Availability limitation, fiscal year 2017 request	-10,581,000

The rental of space program funds lease payments made to privately-owned buildings, temporary space for Federal employees during major repair and alteration projects, and relocations from Federal buildings due to forced moves and relocations as a result of health and safety conditions.

COMMITTEE RECOMMENDATION

The Committee recommends a limitation of \$5,645,000,000 for rental of space. The Committee expects GSA to reduce the amount of leased space in its inventory at a faster pace.

BUILDING OPERATIONS

Limitations on Availability of Revenue:	
Limitation on availability, fiscal year 2016	\$2,274,000,000
Limitation on availability, budget request, fiscal year 2017	2,350,618,000
Recommended in the bill	2,336,100,000
Bill compared with:	
Availability limitation, fiscal year 2016	+62,100,000
Availability limitation, fiscal year 2017 request	-14,518,000

The building operations account funds services that Federal agencies in GSA-owned buildings and occasionally in GSA-leased buildings, when not provided by the lessor, directly benefit from such as building security, cleaning, utilities, window washing, snow removal, pest control, and maintenance of heating, air conditioning, ventilating, plumbing, sewage, electrical, elevator, escalator, and fire protection systems. In addition, this account funds all the personnel and administrative expenses for carrying out construction and acquisition, repair and alteration, and leasing activities.

COMMITTEE RECOMMENDATION

The Committee recommends a limitation of \$2,336,100,000 for Building Operations and Maintenance. Within this amount, \$1,184,790,000 is for building services and \$1,151,310,000 is for salaries and expenses. Up to five percent of the funds may be

transferred between these activities upon the advance notification to the Committees on Appropriations of the House and Senate. Not later than 60 days after the date of enactment of this Act, the Administrator shall submit a spend plan, by region, regarding the use of these funds to the Committees on Appropriations of the House and Senate.

GENERAL ACTIVITIES

GOVERNMENT-WIDE POLICY

Appropriation, fiscal year 2016	\$58,000,000
Budget request, fiscal year 2017	64,497,000

Bill compared with:	
Appropriation, fiscal year 2016	---
Budget request, fiscal year 2017	- 6,497,000

The Office of Government-Wide Policy provides Federal agencies with guidelines, best practices, and performance measures for complying with all the laws, regulations, and executive orders related to: acquisition and procurement, personal and real property management, travel and transportation management, electronic customer service delivery, and use of Federal advisory committees.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$58,000,000 for Government-wide Policy.

Green Buildings.—The Committee shares the GSA’s goal of reducing building expenses through the efficient use of energy and water and encourages energy efficiency to be considered when purchasing construction and building materials, such as sustainable wood products. The Committee is concerned, however, that GSA’s current green building policies and practices are tailored to reflect the standards of a specific third-party certification system rather than the public interest in greater energy and water efficiency. All agencies should be wary of becoming captured; no third-party certification program has a monopoly on how to attain efficiency, much less sustainability. For example, efficiency and sustainability can be achieved not just through the design of buildings or major renovations and the selection of materials, but also through proper building maintenance and usage, building codes, energy codes, energy efficiency rating systems, or a combination thereof.

The Committee recognizes sustainable roofing systems as a viable option for government buildings.

Information Technology Supply Chain Report.—No later than 120 days after the enactment of this act, the GSA shall consult with the Department of Defense (DOD) about the effectiveness of DOD’s implementation of the supply chain security requirements set forth in Section 806 of the Fiscal Year 2011 National Defense Authorization Act, which required DOD to better manage its information technology supply chain. After consultation with DOD, GSA shall submit an unclassified report to the Committees on Appropriations of the House and Senate on the feasibility of adopting DOD-like supply chain security initiatives. This report should also include an unclassified assessment of the supply chain risks posed by potentially untrustworthy sub-contractors, as well as a general plan to mitigate such risks.

SDVOSB Participation.—The Committee encourages GSA to work with the Department of Veterans Affairs and other Federal agencies to ensure the participation of Service-Disabled Veteran-Owned Small Businesses (SDVOSBs), consistent with the provisions of P.L. 109–461 and Executive Order 13360, in conjunction with the Federal Strategic Sourcing Initiative (FSSI) for purchasing channel decisions, other agency contracting and procurement opportunities relevant to Janitorial and Sanitation products, and other areas. The Committee encourages GSA to take proactive steps to ensure SDVOSBs have fair and reasonable opportunities to participate in GSA procurement processes when they have valid Federal Supply Schedules (FSS).

OPERATING EXPENSES

Appropriation, fiscal year 2016	\$49,376,000
Budget request, fiscal year 2017	50,174,000
Recommended in the bill	49,266,000
Bill compared with:	
Appropriation, fiscal year 2016	– 110,000
Budget request, fiscal year 2017	– 908,000

Included under this heading are personal property utilization and donation activities of the Federal Acquisition Service; real property utilization and disposal activities of the Public Buildings Service; select management and administration activities including support of government-wide emergency management activities; and top-level, agency-wide management communication activities.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$49,266,000 for operating expenses. Within the amount provided under this heading, \$25,869,000 is for Real and Personal Property Management and Disposal, and \$23,397,000 is for the Office of the Administrator.

Federal Real Property Profile.—The Committee remains extremely frustrated with the slow pace at which GSA and other Federal agencies are improving the accuracy of the Federal Real Property Profile. The U.S. Government Accountability Office (GAO) named managing Federal real property to its 2015 High Risk List. The Committee is concerned that despite language in the fiscal year 2015 and 2016 reports, GSA has not made progress on the value and accuracy of its inventory, taken steps to include public lands as required by Executive Order 13327, made the FRPP available to the public, or geo-enabling the FRPP. The Committee is outraged that the Federal Government cannot provide an accurate accounting to the American public of all the property that it owns. The Committee expects GSA to work with agencies across government and utilize geographic information technology to improve the data contained in this report and enhance transparency to the American taxpayer. The Committee directs GSA to report to the Committees on Appropriations of the House and Senate on steps taken to improve the quality and transparency of the profile within 60 days after the enactment of this Act.

The Committee recommends an appropriation of \$65,000,000 for the Office of Inspector General.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$55,894,000 for the Federal Citizen Services Fund. The Committee expects the funds provided for these activities, combined with efficiency gains and resource prioritization will result in increased delivery of information to the public and in the ease of transaction with the government.

All the income collected by the Office of Citizen Services and Innovative Technologies (OCSIT) in the form of reimbursements from Federal agencies, user fees for publications ordered by the public, payments from private entities for services rendered, and gifts from the public is available to the OCSIT without regard to fiscal year limitations, but is subject to an annual limitation of \$150,000,000. Any revenues accruing in excess of this amount shall remain in the

Low-interest loans and deposits are made available to assist these credit unions. Loans or deposits are normally repaid in five years, although shorter repayment periods may be considered. Technical assistance grants are also available to low-income credit unions. Earnings generated from the CDRLF are available to fund technical assistance grants in addition to funds provided for specifically in appropriations acts. Grants are available for improving operations as well as addressing safety and soundness issues.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$2,000,000 for the National Credit Union Administration's CDRLF for technical assistance grants. The OGE is also responsible for creating and running an electronic financial disclosure system under the Stop Trading on Congressional Knowledge (STOCK) Act.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$16,090,000 for the OGE.

OFFICE OF PERSONNEL MANAGEMENT

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

Appropriation, fiscal year 2016	\$245,238,000
Budget request, fiscal year 2017	289,520,000
Recommended in the bill	286,478,000
Bill compared with:	
Appropriation, fiscal year 2016	+41,240,000
Budget request, fiscal year 2017	-3,042,000

The Office of Personnel Management (OPM) is the Federal agency responsible for management of Federal human resources policy and oversight of the merit civil service system. OPM provides a government-wide policy framework for personnel matters, advises and assists agencies (often on a reimbursable basis), and ensures that agency operations are consistent with requirements of law, with emphasis on such issues as veterans preference. OPM oversees examining of applicants for employment; issues regulations and policies on hiring, classification and pay, training, investigations; and many other aspects of personnel management, and operates a reimbursable training program for the Federal Government's managers and executives. OPM is also responsible for administering the retirement, health benefits and life insurance programs affecting most Federal employees, retired Federal employees, and their survivors.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$144,867,000 for the General Fund. The Committee also recommends \$141,611,000 for administrative expenses, to be transferred from the appropriate trust funds.

OPM has struggled for decades to process Federal retirees' pension claims quickly and accurately. As a result, tens of thousands of new retirees wait months to receive their complete annuities—some wait more than a year—and in the meantime they may be constrained by reduced interim pensions. The Committee expects OPM to continue to make retirement processing a priority and move to a fully-automated electronic filing system. The Committee believes that the backlog and delays in retirement processing are unacceptable and directs OPM to continue to provide the Committees on Appropriations of the House and Senate with monthly reports on its progress in addressing the backlog in claims.

In the wake of the two massive data breaches, OPM must continue to take steps to secure the personally identifiable information and material relating to security clearances of all current, former, and prospective federal government employees. The Committee has provided full funding for the Administration's fiscal years 2016 and 2017 requests for cybersecurity and expects OPM to continue with IT upgrades to secure its networks against future attacks.

National Bureau of Investigations.—The Committee requires more information about the Administration's proposal to create the National Bureau of Investigations (NBIB), which will replace OPM's Federal Investigative Services Branch, and, therefore, directs OPM to submit to the Committees on Appropriations of the House and Senate quarterly progress reports highlighting the NBIB implementation plan, timeline, and milestones; costs for each phase of implementation and anticipated outyear costs; governance, resource management, and accountability policies between OPM and Department of Defense; and a human capital plan as well as other significant issues related to standing-up the NBIB.

Critical Functions.—The recent security breaches, focus on system upgrades, and the new National Background Investigations Bureau should not detract OPM from fulfilling its critical functions such as recruiting, retaining and developing a Federal workforce to serve the American people. OPM serves the Federal workforce by directing human resources and employee management services, and administering retirement benefits, managing healthcare and insurance programs, overseeing merit-based and inclusive hiring in to the civil service, and providing a secure employment process. The Committee reminds OPM's senior management to not lose sight of its mission as it responds to critical IT challenges.

Recruitment.—The Committee is concerned with the length of time it often takes the Federal Government to hire qualified employees. Rigid rules along with long delays in the hiring and interview process discourage top candidates from applying for or accepting Federal positions. The Committee encourages the OPM to seek feedback on its recruitment process, explore and implement hiring process enhancements to reduce the delays in the hiring and notification process, and improve overall the Federal recruitment process.

As part of OPM's mission to recruit and hire the most talented and diverse Federal workforce, the Committee encourages Federal agencies to increase recruitment efforts within the United States and the territories and at Hispanic Serving Institutions and Historically Black Colleges and Universities.

CyberCorps.—A concern throughout the Federal Government is hiring qualified cyber security staff. The CyberCorps Scholarship for Service Program is a unique program designed to increase and strengthen the cadre of cyber professionals by providing students with academic scholarships in return for their service in Federal, state, or local government. A greater effort is needed to promote Federal cyber positions among recent CyberCorps graduates and to streamline the hiring process to attract these individuals to Federal service. OPM is directed to submit a report to the Committees on Appropriations of the House and Senate, House Permanent Select Committee on Intelligence, and the Senate Select Committee on Intelligence within 90 days of enactment of this Act outlining the steps OPM will take to improve the hiring process of CyberCorps graduates.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

The Committee recommends a general fund appropriation of \$5,072,000 for the OIG. In addition, the recommendation provides \$26,662,000 from appropriate trust funds.

National Bureau of Investigations.—Of particular interest to the Committee is the implementation of OPM’s National Background Investigations Bureau (NBIB). The Committee directs the Inspector General to submit a report to the Committees on Appropriations of the House and Senate not less than 12 months after enactment of this Act assessing the implementation of NBIB; staff transitions from the Federal Investigative Services and future staffing needs; current and future costs; governance and accountability structure among the NBIB, Department of Defense, OPM IG and Perform-

ance Accountability Council; and recommendations and weaknesses found.

The Committee recommends an appropriation of \$25,735,000 for the OSC.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation, out of the Postal Fund, of \$16,200,000 for the Postal Regulatory Commission (Commission). The Committee believes the Commission can make better use of its office space and reduce annual rental costs through consolidation and reconfiguration. The Committee directs the Commission to work with the General Services Administration on optimizing the Commission's space to reduce the Commission's footprint and save additional resources.

PRIVACY AND CIVIL LIBERTIES OVERSIGHT BOARD

SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$21,297,000
Budget request, fiscal year 2017	10,081,000
Recommended in the bill	8,297,000
Bill compared with:	
Appropriation, fiscal year 2016	- 13,000,000
Budget request, fiscal year 2017	- 1,784,000

The Privacy and Civil Liberties Oversight Board (the Board) is an independent agency within the Executive Branch whose purpose is to (1) analyze and review actions the Executive Branch takes to protect the nation from terrorism, ensuring that the need for such actions is balanced with the need to protect privacy and civil liberties; and (2) ensure that liberty concerns are appropriately considered in the development and implementation of laws, regulations, and policies related to efforts to protect the nation against terrorism. The Board consists of 4 part-time members and full-time chairman.

COMMITTEE RECOMMENDATION

The Committee recommends \$8,297,000 for the Board.

The Committee is appreciative of the Board's decision to secure the most cost-effective facilities lease and encourages the Board to continue to work with the General Services Administration in maintaining such measures, particularly at a time when resources are limited. The Committee directs the Board to provide quarterly briefings to the Committees on Appropriations of the House and Senate on the progress of the Board's facilities move.

SECURITIES AND EXCHANGE COMMISSION

SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$1,605,000,000
Budget request, fiscal year 2017	1,781,457,278
Recommended in the bill	1,555,000,000
Bill compared with:	
Appropriation, fiscal year 2016	- 50,000,000
Budget request, fiscal year 2017	- 226,457,278

The primary mission of the Securities and Exchange Commission (SEC) is to protect investors, maintain the integrity of the securities markets, and assure adequate information on the capital markets is made available to market participants and policy makers. This includes monitoring the rapid evolution of the capital markets, ensuring full disclosure of all appropriate financial information, regulating the Nation's securities markets, and preventing fraud and malpractice in the securities and financial markets.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$1,555,000,000 for the SEC. The Committee designates not less than \$14,700,000 for Office of Inspector General and \$72,049,000 for the Division of Economic and Risk Analysis.

Reserve Fund/Information Technology.—The Committee is supportive of the SEC's prioritization of robust and effective information technology (IT) systems within the Commission. The SEC has

indicated that the planned use of the Dodd-Frank mandatory Reserve Fund is to support the Commission's IT initiatives. However, this fund is not overseen by Congress and it is left to the discretion of the Commission as to its use. The Committee believes emergency reserve funds should be used for natural disaster emergencies and other crises, not discretionary priorities within a Federal agency. While the Committee does not support the use of the Reserve Fund, an increase to IT funding is provided through the Commission's overall appropriation. The Committee's recommended funding level for IT initiatives increases the overall funding level by \$50,000,000 specifically to support IT funding priorities. The Committee includes a limitation (section 624) prohibiting funds from the Reserve Fund from being used by the Commission.

The Committee expects the Commission to continue to improve network safeguards and security controls, both physical and cyber, from potential intrusions. The Committee expects the Commission to prioritize and fully implement the information security program as soon as possible.

Fiduciary Standard.—The Committee remains concerned with the Department of Labor (DOL) newly released rule regarding fiduciary standards for broker-dealers. This rule overlaps with SEC's jurisdiction and the implications for regulatory conflict and investor harm are far-reaching. The DOL is neither an expert in the area of overseeing investment advisors, nor the primary regulator for broker-dealers. The Committee knows of no peer-reviewed studies that have established causation between a fiduciary standard and returns on investment. Further, the impact on low to moderate income retail investors is of significant concern. The Committee will continue to closely monitor any SEC rulemaking in this area and expects the SEC to take into consideration the impact on retail investors and the availability of affordable investment advice.

Liquidity.—The Committee believes the SEC is the expert regulator with regard to the U.S. capital markets. Since the passage of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act), prudential regulators, through the Financial Stability Oversight Council (FSOC), have been able to influence and, in many cases, impair the U.S. markets' functionality. Although both the banking sector and capital markets affect the U.S. and global economy, prudential regulation and market regulation are inherently different and should be treated as such.

The Committee has strong concerns about the effect that the Dodd-Frank Act and other layers of financial regulation have had, and will continue to have, on overall market liquidity. The Committee believes these layers of regulation have resulted in an alarming lack of liquidity in U.S. markets, particularly fixed income markets. In FY 2016 the Committee directed the SEC's Division of Economic and Risk Analysis (DERA) to report to the Committee within one year of enactment of this Act, on the combined impacts that the Dodd-Frank Act—especially section 619—and other financial regulations, such as Basel III, have had on: (1) access to capital for consumers, investors, and businesses, and (2) market liquidity, to include U.S. Treasury markets and corporate debt. The Committee looks forward to reviewing this report.

The Committee has been supportive of DERA in order to encourage the Commission prioritize robust and thorough expert economic

analysis of SEC rulemakings. The Committee expects DERA, when it performs economic analysis for proposed SEC regulations, to consider the overall economic effects of all financial regulations—not just those proposed by the SEC—and their effect on the U.S. markets.

BDC Modernization.—Congress created Business Development Companies (BDCs) in 1980 to facilitate capital formation in small and medium size companies. BDCs have recently invested in small and medium-size companies that provide vital services to the American public, including companies involved in disease treatment and prevention, education, information technology security, agriculture, and construction. Many BDCs specialize in financing acquisitions made by private equity firms. While there is a wide variation among BDCs in the size of their investments, the companies they invest in, and the industries in which they concentrate, they all share a common investment objective of making it easier for small and medium-sized companies to obtain access to capital. Funding from BDCs has become more important for small businesses as the stifling regulatory environment resulting from the regulatory overreaction to the financial crisis has restricted bank and other traditional financing options for these companies. The Committee instructs the SEC to modernize the business development company regulatory regime consistent with H.R. 3868, the Small Business Credit Availability Act as reported by the Committee on Financial Services on November 3, 2015.

BDC Acquired Fund Fee and Expense Rule.—The SEC issued its acquired fund fees and expenses (AFFE) rule in 2003 to deal with the “Funds of Funds” business models. As the law does not consider BDCs to be Funds of Funds, the SEC did not mention BDCs in the rule. Today the BDC industry has grown dramatically and the AFFE rule unnecessarily harms the industry. Retail investors benefit from having professional firms and indexes analyze BDC securities. However, retail investors are not being given adequate market protections because the AFFE rule prohibits BDC securities from inclusion in indexes, which results in fewer research analysts that cover the BDC industry. The Committee recommends that the SEC re-open the AFFE rule for public comment to consider the impacts on the BDC industry and its investors.

Disclosures.—Effective disclosures are at the core of investor protection and must be timely, accurate, and understandable to both retail and institutional investors. Corporate disclosures should also be provided in an easily accessible format. The current disclosure regime system must be overhauled in order to eliminate obsolete and onerous disclosures, which the SEC has previously acknowledged. The Committee directs the SEC submit a report, within 90 days of enactment of this Act, to the Committees on Appropriations of the House and Senate outlining the Commission’s efforts to modernize the disclosure requirements.

Organizational Structure.—The Committee remains concerned that a lack of managerial accountability, focus, prioritization, and internal communication hampers the effectiveness of the SEC. The Committee has concurred with the recommendation put forth in the Boston Consulting Group (BCG) report that the SEC must reorganize in order to become more efficient. While progress has been made in reorganizing certain offices, the Committee believes there

is more to be done to make the Commission better able to respond to dynamic markets. The Committee again directs the SEC to provide an updated report on a reorganization plan outlining areas of improvement. Within the report the Committee directs the SEC to undertake a review of the overall organizational structure. This report is to be delivered to the Committees on Appropriations of the House and Senate within 90 days of enactment of this Act.

Financial Accounting Standards.—Any proposals issued by the SEC on whether to adopt International Financial Reporting Standards (IFRS) by U.S. public companies must account for the impact on U.S. tax and accounting policies, and the differences between U.S. Generally Accepted Accounting Principles (GAAP) and IFRS. The SEC must also consider the economic costs that IFRS could impose on cost of capital and investment in the U.S. The Committee expects that the SEC would subject any proposal to adopt IFRS to be subject to the notice-and-comment requirements of the Administrative Procedure Act so that the SEC can receive input from all interested parties.

Joint Rulemakings.—The Committee directs the SEC to work cooperatively with the Commodity Futures Trading Commission (CFTC) on all joint rulemakings as required by the Dodd-Frank Wall Street Reform and Consumer Protection Act.

SELECTIVE SERVICE SYSTEM

SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$22,703,000
Budget request, fiscal year 2017	22,900,000
Recommended in the bill	22,703,000
Bill compared with:	
Appropriation, fiscal year 2016	---
Budget request, fiscal year 2017	- 197,000

The Selective Service System was established by the Selective Service Act of 1948. The mission of the System is to be prepared to supply manpower to the Armed Forces adequate to ensure the security of the United States during a time of national emergency. Since 1973, the Armed Forces have relied on volunteers to fill military manpower requirements, but selective service registration was reinstated in July 1980.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$22,703,000 for the Selective Service System.

SMALL BUSINESS ADMINISTRATION

The Small Business Administration (SBA) assists small businesses through programs including loans, grants, and contracting preferences. These programs maintain and strengthen an economy that depends on small businesses for 60 to 80 percent of job creation. SBA programs also serve disadvantaged populations so that these small business enterprises may overcome economic and social obstacles to success.

The recommendation provides a total of \$883,361,000 for the SBA for fiscal year 2017. Detailed guidance for the SBA appropriations accounts is presented below.

SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$268,000,000
Budget request, fiscal year 2017	275,033,000
Recommended in the bill	268,000,000
Bill compared with:	
Appropriation, fiscal year 2016	---
Budget request, fiscal year 2017	-7,033,000

COMMITTEE RECOMMENDATION

The Committee recommends \$268,000,000 for the salaries and expenses of the SBA.

SBIC Virtual Data Rooms.—The Committee believes the SBA has longstanding problems with maintaining and updating technology. The SBA continues to use inadequate technological systems to share files, reports, contracts, and other information that is communicated between SBA staff as well as between SBICs and the SBA. Virtual Data Rooms (VDR) are regularly used in the private sector and would make data more secure and increase operational efficiencies for both SBA and SBICs. VDRs could also streamline the collection of data by SBA staff, removing redundant processes at the SBA and saving time and resources. The Committee recommends that the SBA should give SBICs the option to select their own VDR provider which would serve as a communication vehicle for SBICs and the SBA in a single, secure location for all regulatory documents, submissions, requests, and communications.

SBIC Program and State Data.—For decades an important set of consolidated SBIC Program data has routinely been shared with industry, Congress, and the public. This important information, which is both a meaningful economic indicator on the small business sector as well as an indicator of SBA's activities and performance, was made available on a monthly basis. In addition to the SBIC Program data, the SBA routinely released annual data on the impact of SBIC investments as well as specific companies in all fifty states. The SBA has only released the SBIC program data once since the end of the 2015 fiscal year and the SBA has not released the state data since the 2013 fiscal year. The Committee recommends that SBA should release this data to industry and Congress to allow for a thorough review of the impact of the SBIC Program on the economy and an analysis of the performance of the SBA.

SBIC Program Licensing.—The Committee continues to be concerned with the slow pace of licensing at the SBIC Program. SBA has a six month goal to approve licenses that are in the application process. The SBA fails to meet this basic goal and the average time to license is often well over a year. These delays are occurring in contradiction to the fact that the number of applications has decreased. The Committee again recommends that the SBA should create a meaningfully expedited and streamlined licensing process of repeat licensees, those SBICs that have the same management teams and proven track record in the SBIC Program. This fast track process for repeat licensees should be completed no longer than 45 days after an application is submitted to the SBA, which will allow SBA to properly redirect their resources to first time funds. The Committee also believes the SBA Investment Division should consider reorganizing the SBIC licensing process and per-

sonnel to more efficiently use the resources allocated. In particular, the SBA should: combine the licensing and development staff; reduce the number of licensing committees and steps for all applicants; and create a meaningful green light letter process that clearly outlines for applicants the needed benchmarks for license approval without changing any of the terms on the applicant during licensing.

Credit Elsewhere.—The Committee believes that SBA guaranteed loans should be targeted at borrowers who would otherwise not be able to receive a loan elsewhere. The Committee directs the Government Accountability Office (GAO) to conduct a study and report to the Committees on Appropriations of the House and Senate, and the Committee on Small Business of the House, and the Committee on Small Business and Entrepreneurship of the Senate no later than 120 days after enactment of this Act on credit elsewhere, to include an analysis of the criteria currently used to identify whether businesses are unable to obtain credit elsewhere is sufficient, and if not, what additional criteria could be used.

The Committee recognizes the value of the 8(a) program in helping small and disadvantaged businesses compete in the marketplace. The bill provides sufficient funding to execute the 8(a) program.

ENTREPRENEURIAL DEVELOPMENT PROGRAMS

Appropriation, fiscal year 2016	\$231,100,000
Budget request, fiscal year 2017	230,600,000
Recommended in the bill	243,100,000
Bill compared with:	
Appropriation, fiscal year 2016	+12,000,000
Budget request, fiscal year 2017	+12,500,000

The SBA’s Entrepreneurial Development Programs support non-credit business assistance to entrepreneurs. The appropriation includes funding for a network of resource partners located throughout the United States that provide training, counseling, and technical assistance to small business entrepreneurs.

COMMITTEE RECOMMENDATION

The Committee recommendations for Entrepreneurial Development Programs, by program, are displayed in the following table:

ENTREPRENEURIAL DEVELOPMENT PROGRAMS

[In thousands of dollars]

National Women’s Business Council	1,500
Native American Outreach	2,000

*Veterans Outreach includes funding for: Boots to Business, Veterans Business Outreach Centers (VBOC), Veteran Women Igniting the Spirit of Entrepreneurship (V Wise), Entrepreneurship Bootcamp for Veterans with Disabilities (EBV), and Boots to Business reboot.

The SBA shall not reduce these non-credit programs from the amounts specified above and the SBA shall not merge any of the non-credit programs without advance written approval from the Committee. The Committee strongly supports the development programs listed in the table above and will carefully monitor SBA support of these programs.

Women’s Business Centers.—The Committee notes the absence of WBCs serving many of the U.S. territories and other U.S. insular areas, and recommends that the SBA consider including these areas in WBC services.

Veterans Programs.—The Committee strongly supports programs for veterans transitioning from active duty who are interested in starting small businesses. The Committee recognizes that many veterans are small businesses owners and believes these veteran-owned businesses should be supported by the SBA through trainings and other educational opportunities. The Committee continues to fully fund the request for veterans’ entrepreneurial programs for fiscal year 2017.

OFFICE OF INSPECTOR GENERAL

Appropriation, fiscal year 2016	\$19,900,000

Budget request, fiscal year 2017	---

COMMITTEE RECOMMENDATION

The Committee recommends \$9,320,000 for the Office of Advocacy of the SBA. The Committee supports the Office’s mission to reduce regulatory burdens that Federal policies impose on small businesses and to maximize the benefits small businesses receive from the government.

BUSINESS LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

Appropriation, fiscal year 2016	\$156,064,000
Budget request, fiscal year 2017	157,064,000
Recommended in the bill	157,064,000
Bill compared with:	
Appropriation, fiscal year 2016	+1,000,000
Budget request, fiscal year 2017	---

The SBA Business Loans Program serves as an important source of capital for America’s small businesses. The recommendation sup-

ports the 7(a) business loan program at a level of \$28.5 billion, the 504 certified development company program at a level of \$7.5 billion, Small Business Investment Company (SBIC) debentures, and the Secondary Market Guarantee Program.

COMMITTEE RECOMMENDATION

The Committee recommends a total of \$157,064,000 for the Business Loans Program Account. Of the amount appropriated, \$152,726,000 is for administrative expenses related to business loan programs. The amount provided for administrative expenses may be transferred to and merged with the appropriation for SBA salaries and expenses to cover the common overhead expenses associated with business loans. Funding is included to fully support the Microloan program.

The Committee notes the mission of the Surety Bond Guarantee (SBG) program is to provide and manage surety bond guarantees for qualified small and emerging businesses, in direct partnership with surety companies and their agents, utilizing the most efficient and effective operational policies and procedures. The Committee is supportive of SBG's efforts to encourage surety companies to bond small businesses who otherwise would have difficulty obtaining bonding on their own.

DISASTER LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

Appropriation, fiscal year 2016	\$186,858,000
Budget request, fiscal year 2017*	185,977,000
Recommended in the bill	185,977,000
Bill compared with:	
Appropriation, fiscal year 2016	- 881,000
Budget request, fiscal year 2017	---

*The Committee funds this program within its discretionary allocation. The Administration proposed funding most of these costs with a disaster cap adjustment.

COMMITTEE RECOMMENDATION

The Committee recommends a total of \$185,977,000 for Disaster Loan Program administrative expenses which may be transferred and merged with Salaries and Expenses. The Committee provides \$1,000,000 for the Office of Inspector General for audits and reviews of the disaster loans program.

The Committee wants to ensure that disaster victims have full access to SBA's programs. The Committee has been very supportive of the SBA Disaster Loan Program in past fiscal years, including appropriating \$804,000,000 for the Hurricane Sandy disaster in fiscal year 2013. However, SBA has not obligated all the funds appropriated for the Sandy Disaster and has continued to carry over large amounts of no-year funding for disaster subsidy. The Committee expects the SBA to take into consideration these balances in future requests.

The Committee directs the SBA to continue providing updates on available resources for the disaster loans program on a monthly basis.

Pre-mitigation activities within the Disaster Loan Program.—The Committee urges the SBA to coordinate with Federal Emergency Management Agency (FEMA) to evaluate the feasibility of expanding the SBA Disaster Loan Program to allow applicants in areas

of high flood or natural disaster risk to utilize loans for pre-disaster mitigation projects that adhere to FEMA's standards of mitigation activities that significantly reduce a structure's long-term flood risk. The SBA should coordinate with FEMA to weigh the financial exposure of the SBA against the potential reduction of claims payments from the National Flood Insurance Program.

ADMINISTRATIVE PROVISIONS—SMALL BUSINESS ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

Section 530. The Committee continues a provision for the SBA authorizing transfers of up to five percent of any SBA appropriation to other appropriations, provided that transfers do not increase an appropriation by more than 10 percent. The provision also requires that transfers be treated as a reprogramming of funds.

Section 531. The Committee continues a provision waiving 7(a) loan guarantee fees for veterans and their spouses.

Section 532. The Committee includes a provision rescinding prior year unobligated balances related to business loan subsidy for programs that are now zero subsidy.

UNITED STATES POSTAL SERVICE

PAYMENT TO THE POSTAL SERVICE FUND

Appropriation, fiscal year 2016	\$55,075,000
Budget request, fiscal year 2017	63,658,000
Recommended in the bill	41,151,000
Bill compared with:	
Appropriation, fiscal year 2016	– 13,924,000
Budget request, fiscal year 2017	– 22,507,000

The United States Postal Service (USPS) is funded almost entirely by Postal ratepayers rather than taxpayers. Funds provided to the Postal Service in the Payment to the Postal Service Fund include appropriations for revenue forgone, including providing free mail for the blind, and for overseas absentee voting.

COMMITTEE RECOMMENDATION

The Committee recommends appropriations totaling \$41,151,000 for Payment to the Postal Service Fund. The recommendation funds free mail for the blind and overseas voting and reconciliation of prior year cost adjustment.

Rural Post Offices.—The Committee believes that the United States postal facility network is an asset of significant value. The closure of post offices in rural communities creates an economic burden for people in the United States that depend on the Postal Service for communication and package services. In addition to typical postal services, post offices are part of the identity of rural communities and provide a significant social value. The closure process of post offices does not adequately take into account community input.

Notification to Congress.—Title 39 of the U.S. Code requires the Postal Service to provide the public with notice prior to closing or consolidating a post office. The Committee understands that it is the Postal Service's policy to inform Member of Congress' district and Washington, D.C. offices when the public receives notice. The Committee directs the Postal Service to keep Members of Congress

informed of Postal Service activities impacting their constituents and expects the Postal Service to ensure that Members of Congress are appropriately informed simultaneously or prior to all public notices.

Postmarks on Mail.—The Committee believes postmarks on mail should accurately reflect the day on which it was received by the Postal Service.

Preservation.—The Committee appreciates the Postal Service’s mission to preserve its artistic and historical heritage and is pleased that the Postal Service currently employs a federal preservation officer and historian to care for their collection of Postal Fine Arts, representing more than 1,400 murals and sculptures from the New Deal Program, that are on display in postal facilities around the country. The Committee recognizes the important cultural enrichment that these murals and sculptures provide. In addition, the Committee recognizes the importance of the arts in local communities including the display of art in public spaces including interested local postal facilities with the consent of, and at no expense to, the U.S. Postal Service.

Accessibility for Disabled Individuals.—The Committee notes that under the Architectural Barriers Act, the Postal Service is required to meet accessibility requirements for disabled individuals.

The Committee is pleased with the passage of the Multinational Species Conservation Fund Semi-postal Stamp Reauthorization Act, but is concerned that sales of the stamp will not improve without support from the Postal Service. The Committee directs the Postmaster General to submit a report, within 90 days of enactment of this Act, on the actions planned and taken by the Postal Service to increase sales of the stamp. P.L. 113–165 reauthorized the printing of the Multinational Species Conservation Fund semi-postal stamp for an additional 4 years. Although the Postal Service reissued the stamp as directed by Congress, disappointingly little effort was made to make the public aware of the stamp’s return and sales during the holiday season. The Committee directs the Postmaster General to report quarterly to the Committee on Appropriations of the House and Senate on how many stamps have been sold and how many remain in stock.

OFFICE OF INSPECTOR GENERAL

Budget request, fiscal year 2017	– 800,000

The Office of Inspector General (OIG) conducts audits, reviews and investigations, and keeps Congress informed on the efficiency and economy of United States Postal Service (USPS) programs and operations.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$258,000,000 for the OIG.

UNITED STATES TAX COURT

SALARIES AND EXPENSES

Appropriation, fiscal year 2016	\$51,300,000
Budget request, fiscal year 2017	53,861,000
Recommended in the bill	51,300,000
Bill compared with:	
Appropriation, fiscal year 2016	---
Budget request, fiscal year 2017	-2,561,000

The U.S. Tax Court adjudicates controversies involving deficiencies in income, estate, and gift taxes. The Court also has jurisdiction to determine deficiencies in certain excise taxes, to issue declaratory judgments in the areas of qualifications of retirement plans and exemptions of charitable organizations, and to decide certain cases involving disclosure of tax information by the Commissioner of the Internal Revenue Service.

COMMITTEE RECOMMENDATION

The Committee recommends an appropriation of \$51,300,000 for the U.S. Tax Court.
