#### WTIS 2020 Goes Virtual

The International Telecommunication Union's Telecommunication Development Bureau announced today that the 2020 World Telecommunication/ICT Indicators Symposium (WTIS) will be held exclusively online this year. It had been scheduled as an in-person event in Geneva, Switzerland, in April, but was postponed in light of the COVID-19 pandemic until December, originally with the intention of holding it in Geneva. The dates for the now virtual event remain Dec. 1 to 3.
