The firm will replace the seat belt buckles, free of charge.

Prevost Car (US) Inc. (Prevost) is recalling about 33 2018 X3-45 buses because the passenger seat belt buckle wires may be frayed. If damaged, a seat belt assembly will not buckle properly, which increases the risk of injury in the event of a crash (*NHTSA Recall Notice*, No. 22V236, Report receipt date: April 12, 2022).

Remedy. Prevost will replace the seat belt buckles, free of charge. Owner notification letters are expected to be mailed June 3, 2022.

Contact information. Owners may contact Prevost customer service at 1-866-870-2046. Owners also may contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153) or go to www.nhtsa.gov.
