The subject vehicles could stall, increasing the risk of a crash.

Chrysler (FCA US, LLC) is recalling approximately 131,700 2021 Ram 1500 vehicles equipped with 5.7LeTorque engines because the powertrain control module (PCM) software may cause an incorrect fuel mixture condition in the engine, resulting in an engine stall (*NHTSA Recall Notice*, No. 23V265, Report receipt date: April 13, 2023).

Remedy. Dealers will update the PCM calibration software, free of charge. Owner notification letters are expected to be mailed June 2, 2023.

Contact information. Owners may contact FCA US, LLC customer service at 1-800-853-1403. FCA US, LLC's number for this recall is 37A. Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.nhtsa.gov.
