By Joe Cox, J.D.

Dealers will replace the integrated brake system.

BMW of North America, LLC (BMW) is recalling approximately 79,670 2023 X1 xDrive28i, 2024 X5 sDrive40i, X5 xDrive40i, X5 M60i, X5M, X5 xDrive50e, X6 xDrive40i, X6M60i, X6M, 2023-2024 X7 xDrive40i, X7 M60i, XB7, XM, 740i, 740i xDrive, 760i xDrive, i7 eDrive50, i7 xDrive60, i7 M70, 2024 530i, 530i xDrive, i5 eDrive40, i5 M60, 750e xDrive, and Rolls Royce Spectre vehicles because the integrated brake (IB) system may malfunction and result in a loss of power brake assist or cause the Antilock Brake (ABS) and Dynamic Stability Control (DSC) systems to not function properly. A loss of power brake assist can extend the distance required to stop the vehicle. Additionally, malfunctioning ABS and/or DSC systems can cause a loss of vehicle control. Either of these scenarios can increase the risk of a crash (*NHTSA Recall Notice*, No. 24V104, Report receipt date: February 12, 2024).

Remedy. Dealers will replace the integrated brake system, free of charge. Owner notification letters are expected to be mailed April 5, 2024.

Contact information. Owners may contact BMW customer service at 1-800-525-7417 or Rolls Royce customer service at 1-877-877-3735. Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153) or go to www.nhtsa.gov.
